

**Stakeholder Advisory Committee**  
**LIHP Transition Discussion**  
**July 23, 2012**

1. DHCS has reviewed the comments from stakeholders on the draft initial transition plan regarding the Medi-Cal Managed Care Plan Assignment.
  - What are the Pros and cons of choice (“opt in”) vs. assignment to a plan based on the individual’s current medical home (“opt out” ) approach? What do you value most—choice vs. continuity of care?
2. For outreach and notification to LIHP enrollees, DHCS will be engaging stakeholders to discuss the transition activities.
  - What are your recommendations on the types of activities at the local and State level and the coordination needed between State (DHCS/Exchange), LIHPs, community organization and others?
  - What information should be included in the notifications to the LIHP enrollees regarding the transition? Examples?
