### Medi-Cal Program Enrollment - Most Recent 24-Months Total Certified Eligible Beneficiaries

This report counts those individuals who are both eligible and enrolled as certified eligibles in the Medi-Cal program. Certified eligibles are those enrolled in Medi-Cal without an unmet share-of-cost obligation. Additionally, the universe of certified eligibles does not include recipients of FPACT family planning services or maternity care provided under presumptive eligibility.

\*The counts for the months displayed in red reflect an estimated number of certified eligibles. The estimated number of eligibles is calculated using expansion factors based on enrollment lags and aid category. Estimated counts are calculated for the latest months of enrollment only.
