

California Access to Recovery Effort

(CARE)

Revised June 2013

CLIENT INCENTIVE FOR GPRA DATA COLLECTION

The CARE program is required by the Substance Abuse and Mental Health Services Administration to obtain 100 percent compliance with six-month post-intake GPRA interviews. Failure to meet at least 80 percent compliance will result in the CARE grant being reduced.

To facilitate compliance, incentives are available to clients who make themselves available to be interviewed by the provider for the 6-month post intake GPRA. Providers have the responsibility to determine how and what type of client incentive will be distributed, but it must have a value of \$20. Providers may not bill for a client incentive until the completed GPRA has been entered into the VMS, the client has received the incentive, and a receipt is in the client's file. For your convenience, an example of a receipt is provided below.

Also, in an effort to meet the GPRA mandate, the incentive coupon below should be provided to a client by provider upon intake to help the client remember when the GPRA interview is due and to encourage him/her to participate.

Date: _____

Effective this date, I _____ received a \$20 incentive for my participation in the CARE Health Survey.
