General Overview.....	2
California Children's Services Caseload Summary Instructions.....	4
Caseload Determination (for each fiscal year requested).....	5
California Children's Services Caseload Summary Form.....	7
CHDP Program Referral Data	11

General Overview

With the Data Forms found in this section, each local program is able to evaluate its program needs, performance, and trends. The number of children eligible for CMS services (CCS Caseload, CHDP Target Population, and Health Care Program for Children in Foster Care (HCPCFC Caseload), the level of CHDP referrals assist local program to reflect on the impact of their program on children's health and the trends of program participation.

I. CCS Caseload Summary

The data collected on this form are used to report the actual CCS caseload and demonstrate trends in the caseload over time. (See page 4)

Additional Data

Additional data are used to evaluate the staffing requirements for the CHDP and HCPCFC programs.

- The following CHDP Reports are available online through the **Business Objects Reporting System** (<http://www.bi.ext.dhs.ca.gov/wijsp>). For information on accessing the system, contact CMS Branch Information Technology Services Section and request Business Objects support.
 - *CHDP Annual Summary of Screens by Funding Source For Fiscal Year*
 - *CHDP Monthly Summary of Screens by Funding Source For Month o XX-200X*
 - *CHDP Provider Claims and Amounts Paid by County and Funding Source*
 - *Active CHDP Providers by County and Provider Name*
- The CHDP Target Population estimate is from the CMS Branch.
 - *CHDP Target Population Estimate for Fiscal Years 2005-06, 2006-07, and 2007-08.*
- Data regarding children in out of home placement are from the California Department of Social Services, Research and Development Division:
 - Monthly reports available online at http://www.dss.cahwnet.gov/research/children's_405.htm

CWS/CMS1 – Child Welfare Services/Case Management System-Foster Care Children by Placement

This report includes information by placement in-county, out-of-county, and out-of-state.

CWS/CMS2 – Child Welfare Services/Case Management System – Characteristics of Children in Out-of-Home Care

This report provides information on the characteristics of the children in out-of-home placement, including age, gender, ethnicity, type of placement home, funding source, agency responsible, number of cases that were terminated and reason for termination.

- Out of Home Placement Caseload Data (see page 19).

California Children's Services Caseload Summary Instructions

The purpose of submission of the CCS Caseload Summary is to demonstrate the caseload count changes in the county CCS program during the three previous fiscal years. The CCS Caseload Summary demonstrates CCS county workload activity on all cases, whether determined CCS eligible or not. The CCS Caseload Summary shows program participation (Medi-Cal and Non Medi-Cal; Non Medi-Cal caseload includes Healthy Families and all other CCS cases) and is defined as the number of all open (active) CCS cases plus the number of potential CCS cases.

Calculation of Eligible Months and Reporting as Caseload

Beginning in Fiscal Year (FY) 2006-07, the terminology for caseload changed to "eligible months". However, the word "caseload" will be seen throughout the PF&G manual as this is the terminology that is most familiar to the previous users of this manual.

Caseload in FY 2007-08 will be calculated based upon the months the client was eligible for services. Below are examples of types of cases for which a child would be counted as an eligible month:

- If a child has Medi-Cal in a month, that child has an eligible month as a California Children's Services (CCS)/Medi-Cal client.
- If a child is a Healthy Families (HF) subscriber on any day in the month, the child has an eligible month as a CCS/HF client. However, HF will only pay for the dates of service in the month for which the child is actually a HF subscriber.
- If a child has CCS only eligibility on any day in the month, then the child has an eligible month as a CCS-only client. However, CCS-only will only pay for a date of service in the month for which the child has CCS-only eligibility.

There are two reports that can be accessed to calculate "eligible months" for caseload. There is one report in CMS Net Legacy titled "Monthly Caseload Count Report" (for Medi-Cal and Non Medi-Cal counts), and the second report is in Business Objects (BO) titled "Healthy Families Caseload Count Report". In the CMS Net Legacy report, the non-Medi-Cal count is both HF and CCS together. Counties need to subtract FH from the total to get the CCS population.

The CMS Net Legacy report has a history so the report "Monthly Caseload Count Report" (Medi-Cal and non-Medi-Cal) can be processed whenever a county needs the information. However, the HF count in the Business Objects report "Healthy Families Caseload County" only contains information as of the prior day so it is critical for counties to run the report every month to get the HF totals if they want to use BO to retrieve the caseload counts.

This Computes Information Bulletin #167 provides more details regarding these reports. This Bulletin can be found at:

<http://www.dhs.ca.gov/PCFH/cms/ccs/cmsnet/pdf/thiscomputes/thiscomputes167.pdf>

The eligible month information should be retrieved for each type of case for which a child would be counted, e.g. CCS/Medi-Cal, CCS/HF, and CCS-only. At the end of the three month period, the total number of "eligible months" from the three combined reports would need to be divided by three to achieve the "average caseload" number for the quarter.

An example would be:

Month One = 150 eligible months

Month Two = 148 eligible months

Month Three = 167 eligible months

TOTAL 465 Eligible Months

465 eligible months ÷ 3 = 155 eligible months/caseload for the reporting quarter.

Beginning FY 2003-04, the CCS Caseload format (Page 7) added Healthy Families cases along with Medi-Cal and Non Medi-Cal CCS to appropriately reflect program participation in the caseload. To assist counties in determining caseload using this format, the rows on the CCS Caseload Summary have been labeled using numbers 1 to 11, and the columns have been labeled using letters A to B.

To complete this report, caseload data are collected from the CCS Quarterly Administrative Invoices for each fiscal year to be reported. The four quarters of the fiscal year are totaled and divided by four to gain the yearly average CCS Caseload.

Caseload Determination (for each fiscal year requested)

1. Add the average open (active) caseload number for all quarterly invoices from the previous fiscal year and divide by four.
2. Determine the number of potential cases by:
 - a. An actual count of potential cases assigned a temporary number if the county CCS program is using CMS Net, or
 - b. An actual count of potential cases if the county CCS program has a method for assigning a temporary number when the county is not on CMS Net, or
 - c. An estimate of potential cases may be used based on the county's experience.

3. Medi-Cal

Add the average total open (average) caseload (row 1, column A) to the potential cases (row 2, column A) to get the Total Medi-Cal caseload (row 3, column A).

4. Non Medi-Cal

- a. Add the average total open (active) caseload (row 4, column A) to the potential cases (row 5, column A) to get the Total Healthy Families caseload (row 6,

column A). **NOTE:** Healthy Families data may not be available for some counties for one or more of the requested fiscal years, in which case use zeros.

- b. Add the average total open (active) caseload (row 7, column A) to the potential cases (row 8, column A) to get the Total Straight CCS (row 9, column A).
- c. Add Total Healthy Families (row 6, column A) to the Straight CCS caseload (row 9, column A) to get the Total Non Medi-Cal caseload (row 10, column A).

5. Grand Total

Add Total Medi-Cal (row 3, column A), to Total Non Medi-Cal (row 10, column A), and place the result in row 11, column A.

6. Determine the total Medi-Cal and Non Medi-Cal percentage split:

- a. Medi-Cal: Divide row 3, column A, by the Grand Total in row 11, column A. The resulting percentage is placed in row 3, column B.
- b. Non Medi-Cal: Divide row 10, column A by the Grand Total in row 11, column A. The resulting percentage is placed in row 10, column B.
- c. Add the percentages in row 3, column B added to row 10, column B and place the result in row 11, column B (will equal 100 percent).

California Children's Services Caseload Summary Form

10	TOTAL NON MEDI-CAL (Row 6 + Row 9)						
GRAND TOTAL							
11	(Row 3 + Row 10)						

Child Health and Disability Prevention (CHDP) Program Referral Data Instructions

The purpose of submission of the CHDP Program Referral Data is to report the results of referrals for information, medical/dental resources, scheduling appointments and arranging transportation to appointments and care coordination for children eligible for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT)/CHDP services. Informing children and their families about the benefits of prevention and the health services and assistance available to them, helping children and their families use health resources and assuring that health problems found during screenings are diagnosed and treated early are critical activities in the CHDP Program.

California local departments of social services provide basic information about EPSDT to recipients of Medi-Cal benefits. The information includes the importance of preventive health services and the assistance available to children and families through the CHDP Program. Departments of Social Services convey children and families' responses to this basic information and the need for more information and/or assistance. When children and families request more information about CHDP services, or help with making a medical and/or dental appointment and/or for assistance with scheduling the appointment and transportation to reach the appointment, the local department of social services sends a referral to the local CHDP program in the jurisdiction of the child's residence.

Data are reported on this form annually. Trends observed over the course of three Fiscal years (FY) can be used to enhance collaboration with the Department of Social Services eligibility workers in the assurance of CHDP referrals, provide feedback to Managed Care Plan Liaisons, quantify the number of children getting follow-up care, and as an indicator of workload.

Data to Complete the Form

Complete this form using data that are currently available. Where data are not available, please attach an explanation. If your program collects any other data regarding the numbers and types of contacts made or attempted, or other measures of your workload and related outcome data, please attach this information in whatever format you currently gather it.

The most recent FY on the form is the FY prior to the FY of the Plan and Fiscal Guidelines (PFG). For example, when the PFG has been released with instructions and forms for FY 07-08, the most recent year on the CHDP Program Referral Data is FY 06-07. The reason for this is that the results of care coordination for a child with a date of service in a prior FY are often not reportable until after another FY has started.

1. Total number of CalWORKs/Medi-Cal cases informed and determined eligible by the Department of Social Services.

Request this number from the Department of Social Services on a monthly basis and compile annually. The CHDP – Social Services Interagency Agreement, found in Section 5, describes in IX. A. the level and type of management information that will be compiled and shared between the departments.

The data are to reflect the total number of cases with eligible individuals less than 21 years of age, including a child not born but with an expected date for delivery. This number becomes a reference/denominator for the number of cases that are referred to the local

CHDP Program reported in 2.

2. Total number of cases and recipients requesting CHDP services. Requests for CHDP services include referrals to CHDP for medical and/or dental services; and medical and/or dental services with scheduling and/or transportation assistance.
 - a. CalWORKs cases/recipients
 - b. Foster care cases/recipients
 - c. Medi-Cal only cases/recipients

This section shows how many cases and recipients resulted in a referral to CHDP by class of eligibility as a result of the basic information provided by Department of Social Services. Known as CalWORKs since 1996, the cases/recipients in CalWORKs have been referred to as "categorically needy" and part of the Aid for Families with Dependent Children. The Medi-Cal only cases/recipients have been referred to as "medically needy".

Complete the total number of cases and recipients requesting CHDP services from the CHDP Referral, Form PM 357. The Department of Social Services may have this information in their data reports also which would be identified in the CHDP – Social Services Interagency Agreement with the level and type of management information that will be compiled and shared between the departments.

Tracking the number of cases referred and by eligibility type provides information about the level of need for health care services information and referrals and the proportion of cases that are requesting CHDP services.

3. Total number of EPSDT eligible recipients and unborn, referred by Department of Social Services' workers requesting
 - a. Medical and/or dental services
 - b. Medical and/or dental services with scheduling and/or transportation
 - c. Information only (optional)

This section shows what kind of CHDP services have been requested by the eligible recipients.

Complete the total number of cases and recipients requesting CHDP services from the CHDP Referral, Form PM 357. The Department of Social Services may have this information in their data reports also which would be identified in the CHDP – Social Services Interagency Agreement with the level and type of management information that will be compiled and shared between the departments.

Tracking the number of recipients referred by type of request provides information about the level of need for health care services information and referrals and the proportion of cases that are requesting CHDP services with scheduling and/or transportation assistance.

4. Number of persons contacted by telephone, home visit, face-to-face, office visit, or written response to outreach letter.

Complete the total number of recipients contacted by telephone, home visit, face-to-face, office visit, or written response to outreach letter. A successful contact is defined as a response that is received "face-to-face, ear-to-ear, or pen-to-pen" from the recipient.

If you gather other data such as the number of attempts before a successful contact is made, include that data as an addendum.

5. Total number of recipients actually provided scheduling and/or transportation assistance by program staff.

Include the information you record locally that shows the number of recipients provided scheduling and/or transportation assistance. This reflects the assistance you are able to provide that enables a recipient to have an appointment and the necessary transportation to make that appointment.

Note: A good faith effort has to be documented. A good faith effort as referenced in the model Interagency Agreement, Section VIII, includes at least one documented attempt to trace the person through local welfare departments by obtaining a current address and telephone number and to contact the family at their current address/telephone number.

6. Total recipients provided assistance with scheduling and/or transportation who actually received medical and/or dental services

Of those recipients in "5", include the total number who received medical services as confirmed by a Confidential Screening/Billing Report (PM 160) on file or provider certification of provision of service; and/or for dental services, family, provider, or child verification.

CHDP Program Referral Data

Complete this form using the Instructions found on page 4-8 through 4-10.

County/City:	FY 04-05		FY 05-06		FY 06-07	
Basic Informing and CHDP Referrals						
1. Total number of CalWORKs/Medi-Cal cases informed and determined eligible by Department of Social Services

Definitions and
Data Sources:

Columns 1 and 2: Number and percent of Medi-Cal certified eligible children under 21 years
Data Source: Medi-Cal target population derived from Medi-Cal Care Statistics, Department of Health Services. Calendar Year 2003: Table 17: Medi-Cal Program Persons Certified Eligible by County, Sex, and Age

Medi-cal Funded Births by Beneficiary County:

Data Source: Medi-Cal target population derived from Medi-Cal Care Statistics, Department of Health Services. Table 10: Deliveries To Medi-Cal Beneficiaries by Beneficiary County and Category, Calendar Year 2003

Data Source and note
for CHDP Gateway

State funded target population: Finance Dept., Demographic information, data file (www.dof.ca.gov/HTML/DEMOGRAP/data.htm), 2006.txt and select age under 19 years

Target Population

Poverty level between 100-200 percent values from the Census 2000.

The number derived from population estimates for cities of Berkeley, Pasadena and Long Beach are from Department of Finance, California Statistical Abstract 2004, Table B-4: Total Population of California Cities, January 1, 2003 and 2004 (this table used 2004).
