

SFY 15/16 Grouper settings based on the admit date on the claim

FAQ Table 3 Selected Year 3 Grouper Settings for Medi Cal		
Grouper Field	Setting	Comments
APR-DRG Grouper Settings		
Grouper Version	V.32	Effective with dates of admission on or after July, 1, 2015.
Mapping Type	NA	APR-DRG V.32 was released October 1, 2014, reflecting the ICD-9-CM diagnosis and procedure code set that is effective between October 1, 2014, and September 30, 2015. 3M Health Information Systems, the developer of the APR-DRG software, advises that the mapper functionality will not be needed for V.32 between July 1, 2015, and September 30, 2015.
Birth Weight Option	Option 5 coded weight with default	Medi-Cal reads the diagnosis codes (not the value codes) to identify birth weight and/or gestational age if coded using appropriate diagnosis codes on the claim. If the claim does not include a diagnosis code indicating birth weight or gestational age, then the grouper default is to a birth weight that indicates "normal newborn."
Discharge DRG Option	Compute excluding non-POA complication of care	Excluding non-POA Complication of Care (default) is used.

SFY 15/16 Admit date from 7/1/2015 to 9/30/2015 (Year 3)

Keyed by:	Admit date		
Entered code mapping:	ICD-10-CM/PCS Version 33.0 effective 10/01/2015		
Mapping type:	Historical		

Currently, DHCS is evaluating the version 33 APR-DRG mapper solution developed by 3M and released August 28, 2015. Our goal is to install the product into the California Medicaid Management Information System (CA-MMIS) at a date yet to be determined. As is customary with any new product version release, our team must evaluate and test before installation. DHCS will continue to use version 32 of the APR-DRG algorithm and mapper on and after October 1, 2015, until the update to version 33 of the mapper occurs. Version 32 of the mapper will not recognize approximately fifty (50) new ICD-10 PCS (surgical) codes effective October 1, 2015, until version 33 of the mapper is installed into CA-MMIS. Please continue to monitor the DHCS DRG website for provider bulletins.
