

Update: RTDs for DRG Organ Procurement Claims

November 17, 2015

A previously published [NewsFlash](#) stated that hospitals reimbursed by diagnosis-related groups (DRG) are erroneously issued a *Resubmission Turnaround Document* (RTD) when billing organ procurement claims with ancillary codes 810, 811, 812, 813, 814, 815 and 819.

Previously affected hospital providers should no longer receive erroneously issued RTDs when billing organ procurement claims for the above ancillary codes, as this issue has been resolved.

Questions related to this past issue should be directed to the Telephone Service Center at 1-800-541-5555.
