The following codes are used to identify the invoice types used by DHCS. The beginning of each invoice file downloaded from the Electronic Interface System (EIS) or from the CD will begin with letters or numbers. The letter (s) or number corresponds to the program listed in the tables.

It also identifies which invoices apply to the ACA Expansion population. These invoices include an "A" after the program name (i.e. MA - Medi-Cal ACA Expansion Population).

Example: MA\_L12345\_Q1\_Y2016.dat

MA - Medi-Cal ACA Expansion Population

L12345 - Labeler 12345

Q1\_2016 - Rebate Quarter and Year. Data will go back to 2001Q4 or to the oldest period that has an outstanding balance.
