

# PAVE Kick-Off Webinar November 2016

The Department of Health Care Services (DHCS), in collaboration with our software developer Digital Harbor, Inc., is pleased to announce the November 18, 2016 launch of the Provider Application for Validation and Enrollment (PAVE) provider portal. This first provider release will be available for physicians and most allied provider types to enroll in Medi-Cal, update their existing enrollment, or respond to Provider Enrollment Division (PED) requests to revalidate or continue enrollment.

## **Please Join Us for the PAVE Kick-Off Event**

**Date:** Tuesday, November 15

**Time:** 10:00 AM

[Webinar Registration](#)

All paper applications already submitted to DHCS will be processed in accordance with the current paper policy and procedures. Be advised, once an application is submitted in paper, it must remain in a paper format throughout the process. However, we strongly encourage eligible providers to use PAVE to report “all future” enrollment changes to PED.

## **Provider Training**

The first series of PAVE provider training will occur in the afternoons of November 15-17. Stay tuned for specific details coming soon!
