

# CCS TECHNICAL WORKGROUP

---

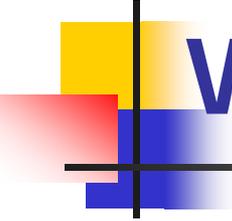

**David Alexander, MD**

**Lucile Packard Foundation for Children's Health**

**DHCS 1115 Waiver**

**Stakeholder Advisory Committee**

**March 10, 2010**

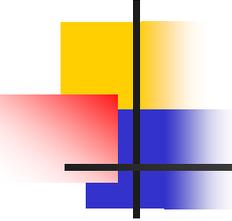

# WORK DONE SO FAR

---

**The Problem:** Current program financing and design were created over many decades and now presents significant challenges for providers, families, counties and the state.

**The Goal:** Identify, design, and implement alternative health delivery models that can be tested in the CCS program to improve the health care delivery model for CSHCN.

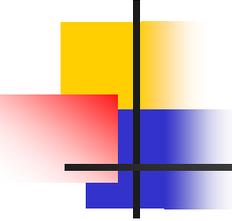

# Alternative Model Review and Analysis

---

- Enhanced Primary Care Case Management
- Provider Based Accountable Care Organization
- Specialty Health Care Plan
- Managed Care Health Plan

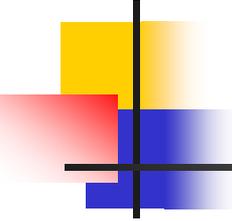

# WORK STILL TO BE DONE

---

## Detail of Model Development

- a. Population
- b. Eligibility
- c. Administration
- d. County or Region
- e. Financing Model (FFS, PMPM, P4P)

# KEY QUESTION

---

- **Given the four possible models, are there any barriers or major issues that you believe would prevent any of these models from being implemented as a pilot and then if successful replicated in other parts of the state or statewide?**
