

Department of Health Care Services

Section 93 Stakeholder Workgroup

September 30, 2014

Questions to Possibly Consider and Discuss:

- Should there be any changes to the Major Risk Medical Insurance Program (MRMIP) such as eligibility requirements or cost-sharing?
- What do we need to understand about current MRMIP subscribers?
- What happens if the Centers for Medicare & Medicaid Services (CMS) determine that the program does not meet the ACA minimum essential coverage (MEC) requirements?
- How should Major Risk Medical Insurance Fund (MRMIF) be used in the future to provide subsidized health care?
- What is realistic based on current year budget allocation to the MRMIF?
- Other questions?
