

DAVID MAXWELL-JOLLY
Director

State of California—Health and Human Services Agency
Department of Health Care Services

ARNOLD SCHWARZENEGGER
Governor

9/17/09 UPDATE

Today we are posting on the website three important documents:

- [Enhanced Medical Home For Medi-Cal's SPD Population](#)
- [Considerations for Redesign of the California Children's Services \(CCS\) Program](#)
- [Key Points & Major Take-Aways of Medi-Cal Waiver Meetings](#)

These documents provide insight to the existing issues and challenges involved in providing care to seniors and persons with disabilities and children with special health care needs. They will serve as a starting point for our further discussions with stakeholders as we design our approach to renewal of our 1115 waiver to advance the goals set out in ABx4 6.

The first document is the work of the Center for Health Care Strategies and was supported by a grant from the California HealthCare Foundation (CHCF) to provide the Department with extensive stakeholders input on health care delivery options for seniors and persons with disabilities. The second document, prepared by Health Management Associates and also funded by CHCF, examines issues related to the California Children's Services program. The third document reports on the key points discussed during a series of three meetings sponsored by the Blue Shield Foundation to understand stakeholders' perspectives on designing systems of care.

We expect to have many more discussions with stakeholders as we progress with our planning efforts for these two populations as well as other beneficiaries in the fee-for-service system that can benefit from more organized approaches to care delivery.

Thank you for your interest.

David Maxwell-Jolly
Director
