

Mobile Vision Services

Mobile Vision Services

Background

- SB 870 required DHCS to establish a mobile vision services program in LA county to provide vision exams and glasses at LA schools

Purpose

- To demonstrate the value of offering vision services directly at school sites as a means to increase access and utilization to Medi-Cal children

Participating Plans

- Health Net
- LA Care

Implementation

- January 1, 2015

Mobile Vision Services

Covered Services

- Vision exams, frames, and dispensing of eyeglasses

Participation Criteria

- Services will be provided at schools that enter into an MOU with the mobile vision provider
- Completed and signed parental consent is required
- Mobile vision services are voluntary
- Parents may choose to fill frames and lenses elsewhere

Evaluation

- Provider-reported data
- Encounter data
