

This document is designed to assist county Mental Health Plans in identifying their proposed services to be considered for certification as a “TBS-equivalent/alternative service” as outlined in the Emily Q v. Bonta Exit Plan (April 23, 2009). TBS-equivalent/alternative services must serve the Emily Q class. Class eligibility is defined as all current and future beneficiaries of full-scope Medi-Cal below the age of 21 in California who are placed in a Rate Classification Level facility of 12 or above and/or a locked treatment facility for the treatment of mental health needs; are being considered for placement in these facilities; or have undergone at least one emergency psychiatric hospitalization related to their current presenting disability within the preceding 24 months.
