

Katie A. Specialty Mental Health Services Report - Fiscal Year 2015/2016

Report run on 3/28/2017

Overview

The Katie A. v Bonta lawsuit Settlement Agreement – in place since December 2011 - outlines a series of actions that are intended to transform the way children and youth who are in foster care or who are at imminent risk of foster care placement receive access to mental health services consistent with a Core Practice Model (CPM) that creates a coherent and all-inclusive approach to service planning and delivery. The Settlement Agreement also specifies that children and youth who meet subclass criteria (as defined in the Settlement Agreement) are eligible to receive Intensive Care Coordination (ICC), Intensive Home Based Services (IHBS), and Therapeutic Foster Care (TFC) (once approved as a Medi-Cal service). County MHPs are required to provide ICC and IHBS services to subclass members. MHPs provide ICC and IHBS and claim federal reimbursement through the Short-Doyle/Medi-Cal (SDMC) claiming system.

The Department of Health Care Services' (DHCS) Mental Health Services Division (MHSD) Information Notice 13-11 instructed counties of the Short-Doyle/Medi-Cal (SDMC) system changes required to support the implementation of ICC and IHBS which included submitting claims with a Demonstration Project Identifier (DPI) of "KTA" and procedure codes (T1017, HK) for Intensive Care Coordination and (H2015, HK) for Intensive Home Based Services.

Purpose of Report

This report displays metrics associated with approved claims for services provided to the Katie A. subclass members. It will be updated monthly and posted during the second week of every month beginning in March 2014.

Some important objectives of the Katie A. Settlement Agreement are to collect existing data specific to the subclass in order to evaluate utilization and timely access to appropriate care and to post data that is useful to counties, stakeholders, and State departments in addressing the needs of subclass members. This report is one of many activities the State has undergone in order to achieve these objectives. Subject to some important limitations, this report provides information regarding the number of subclass members and their service utilization. It also includes service utilization by county and this assists in gauging counties' progress implementing ICC and IHBS.

While this report provides valuable information, it is important to note that there are factors, such as claim lag of up to 12 months, which must be considered. In addition, while this report provides information on a county by county basis, it does not provide information regarding the factors that lead to possible differences among counties in their implementation of ICC and IHBS and provision of other Specialty Mental Health Services (SMHS) to subclass members.

Notes Updated: March 28, 2016

- 1) Claims were being denied due to use of a secondary modifier with ICC and IHBS claims. These service modifiers indicated Telephone or Community. The claiming policy has been updated as follows: ICC and IHBS should be provided in the community and may be provided via telehealth and telephone in instances consistent with TCM and Mental Health Services. Activities unique to ICC and IHBS, such as the Children and Family Team, should be performed face to face as often as possible to address the needs of the child and achieve the level of intensity that these services require. A SDMC system change was implemented on 5/30/14 to correct this and Counties are in the process of submitting replacement claims.
- 2) There is typically claim lag between claim approval and the month of service, so the more recent month totals are typically less than older service month totals.
- 3) Not all counties have implemented the "KTA" claim indicator so their claims may be under reported for services other than ICC and IHBS.
- 4) County Table (pages 9 – 11) data elements have been suppressed or combined in county regions to protect client privacy. The OOC County Tables (formerly pages 12 – 14) have been removed to protect client privacy.
- 5) As of 3/1/2016 the query methodology was updated to search for "HK" modifiers (which indicate ICC and IHBS services) in 837 claim file primary, secondary and tertiary modifier positions. Previously, only the primary modifier position was queried for "HK" modifiers.
- 6) The "**Approved Service Claims for Katie A. Subclass Members** Count of service lines by Month of Submission" (page 3) are zero in July 2015. This submission rate is due to instructions that were provided to the counties and providers to delay submission of claims until new rate tables were approved. In July 2015, counties and providers did not submit claims from July 1st to July 16th. The delay in claim submissions has no impact on services provided to clients.

Katie A. Services Report Technical Definitions

Data Source:

Short Doyle Medi-Cal II (SD2), Copy of Production Database

Methodology:

1. The SD2 Copy of Production Database is queried for Payer Claim Control Numbers (ID numbers that are unique to each service line) found with a Demonstration Project Identifier (DPI) value set to "KTA" and/or claimed with Intensive Care Coordination (T1017, HK) or Intensive Home Based Services (H2015, HK) services
2. The query filters out voided, replaced, and denied claims

Query Methodology:

1. This report defines the subclass as the total number of youth linked to claims with a DPI of "KTA" or claims billed with either Intensive Care Coordination or Intensive Home Based Services that were adjudicated and approved through the SDMC claiming system
2. Not all counties have implemented the "KTA" claim indicator so their claims may be under reported for services other than ICC and IHBS
3. While this report provides information on a county by county basis, it does not provide information regarding the factors that lead to possible differences among counties in their implementation of ICC and IHBS and provision of other Specialty Mental Health Services (SMHS) to subclass members
4. Claims were being denied due to use of a secondary modifier with ICC and IHBS claims. A SDMC system change was implemented on 5/30/14 to correct this and Counties are in the process of submitting replacement claims
 - These service modifiers indicated Telephone or Community
 - The claiming policy has been updated as follows:
"ICC and IHBS should be provided in the community and may be provided via telehealth and telephone in instances consistent with TCM and Mental Health Services. Activities unique to ICC and IHBS, such as the Children and Family Team, should be performed face to face as often as possible to address the needs of the child and achieve the level of intensity that these services require."
5. Claim lag: In the Short Doyle Medi-Cal II data system, there is typically claim lag between claim approval and the month of service, so the more recent month totals are typically less than older service month totals
