Counties use this funding for projects and programs for prevention and early intervention, community services and supports, workforce development and training, innovation, plus capital facilities and technological needs through mental health projects and programs. The State Controller distributes MHS Funds to the counties to plan for and provide mental health programs and other related activities outlined in a county's three-year program and expenditure plan or annual update. However, no minor shall be admitted for psychiatric treatment into the same treatment ward as an adult receiving treatment who is in the custody of any jailor for a violent crime, is a known registered sex offender, or has a known history of, or exhibits inappropriate sexual or other violent behavior which would present a threat to the physical safety of others.

The request for waiver must include, as an attachment, the following:

1. A description of the hardship to the County/City due to inadequate or unavailable alternative resources that would be caused by compliance with the state policy regarding the provision of psychiatric treatment to minors.
2. The specific treatment protocols and administrative procedures established by the County/City for identifying and providing appropriate treatment to minors admitted with adults.
3. Name, address, and telephone number of the facility
 - Number of the facility's beds designated for involuntary treatment
 - Type of facility, license(s), and certification(s) held (including licensing and certifying agency and license and certificate number)

4. The County Board of Supervisors' decision to designate a facility as a facility for evaluation and treatment pursuant to Welfare and Institutions Codes 5150, 5585.50, and 5585.55.

Execution of this Agreement shall not constitute approval of this waiver. Full execution of this contract will continue independently of the waiver review and approval process.

Any waiver granted in the prior fiscal year's Agreement shall be deemed to continue until either party chooses to discontinue it.

To rescind the county's designation of a designated facility, the county shall send a letter to the Department on official letterhead signed by the County Behavioral Health Director or his or her designee indicating that the county no longer designates the particular facility. If not otherwise specified by the host county in the letter to the Department, the discontinuance shall be effective the date the letter to the Department is postmarked and the facility shall no longer be approved as a designated facility as of this date.

Responsibility for Reporting of Breaches.** If the cause of a breach of Department PI or PII is attributable to Contractor or its agents, subcontractors or vendors, Contractor is responsible for all required reporting of the breach as specified in CIPA, section 1798.29 and as may be required under the IEA. Contractor shall bear all costs of required

notifications to individuals as well as any costs associated with the breach. The Privacy Officer shall approve the time, manner and content of any such notifications and their review and approval must be obtained before the notifications are made. The Department will provide its review and approval expeditiously and without unreasonable delay.

- g.** If Contractor has reason to believe that duplicate reporting of the same breach or incident may occur because its subcontractors, agents or vendors may report the breach or incident to the Department in addition to Contractor, Contractor shall notify the Department, and the Department and Contractor may take appropriate action to prevent duplicate reporting.
- h. Department Contact Information.** To direct communications to the above referenced Department staff, the Contractor shall initiate contact as indicated herein. The Department reserves the right to make changes to the contact information below by giving written notice to the Contractor. 10) Designation of Individual Responsible for Security

Contractor shall designate an individual, (e.g., Security Officer), to oversee its data security program who shall be responsible for carrying out the requirements of this Exhibit E-2 and for communicating on security matters with the Department.

EXHIBIT E-3

Miscellaneous Terms and Conditions

Applicable to Exhibit E

- 1) **Disclaimer.** The Department makes no warranty or representation that compliance by Contractor with this Exhibit E, HIPAA or the HIPAA regulations will be adequate or satisfactory for Contractor's own purposes or that any information in Contractor's possession or control, or transmitted or received by Contractor, is or will be secure from unauthorized use or disclosure. Contractor is solely responsible for all decisions made by Contractor regarding the safeguarding of the Department PHI, PI and PII.

- 2) **Amendment.** The parties acknowledge that federal and state laws relating to electronic data security and privacy are rapidly evolving and that amendment of this Exhibit E may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit E embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. The Department may terminate this Agreement upon thirty (30) days written notice in the event:
 - a) Contractor does not promptly enter into negotiations to amend this Exhibit E when requested by the Department pursuant to this section; or
 - b) Contractor does not enter into an amendment providing assurances regarding the safeguarding of Department PHI that the Department deems is necessary to satisfy the standards and requirements of HIPAA and the HIPAA regulations.

- 3) **Judicial or Administrative Proceedings.** Contractor will notify the Department if it is named as a defendant in a criminal proceeding for a violation of HIPAA or other security or privacy law. The Department may terminate this Agreement if Contractor is found guilty of a criminal violation of HIPAA. The Department may terminate this Agreement if a finding or stipulation that the Contractor has violated any standard or requirement of HIPAA, or other security or privacy laws is made in any administrative or civil proceeding in which the Contractor is a party or

has been joined. DHCS will consider the nature and seriousness of the violation in deciding whether or not to terminate the Agreement.

- 4) **Assistance in Litigation or Administrative Proceedings.** Contractor shall make itself and any subcontractors, employees or agents assisting Contractor in the performance of its obligations under this Agreement, available to the Department at no cost to the Department to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against the Department, its directors, officers or employees based upon claimed violation of HIPAA, or the HIPAA regulations, which involves inactions or actions by the Contractor, except where Contractor or its subcontractor, employee or agent is a named adverse party.
- 5) **No Third-Party Beneficiaries.** Nothing express or implied in the terms and conditions of this Exhibit E is intended to confer, nor shall anything herein confer, upon any person other than the Department or Contractor and their respective successors or assignees, any rights, remedies, obligations or liabilities whatsoever.
- 6) **Interpretation.** The terms and conditions in this Exhibit E shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, and the HIPAA regulations. The parties agree that any ambiguity in the terms and conditions of this Exhibit E shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act and the HIPAA regulations, and, if applicable, any other relevant state and federal laws.
- 7) **Conflict.** In case of a conflict between any applicable privacy or security rules, laws, regulations or standards the most stringent shall apply. The most stringent means that safeguard which provides the highest level of protection to PHI, PI and PII from unauthorized disclosure. Further, Contractor must comply within a reasonable period of time with changes to these standards that occur after the effective date of this Agreement.
- 8) **Regulatory References.** A reference in the terms and conditions of this Exhibit E to a section in the HIPAA regulations means the section as in effect or as amended.
- 9) **Survival.** The respective rights and obligations of Contractor under Section 3, Item D of Exhibit E-1, and Section 3, Item B of Exhibit E-2, Responsibilities of Contractor, shall survive the termination or expiration of this Agreement.

- 10) **No Waiver of Obligations.** No change, waiver or discharge of any liability or obligation hereunder on any one or more occasions shall be deemed a waiver of performance of any continuing or other obligation, or shall prohibit enforcement of any obligation, on any other occasion.
- 11) **Audits, Inspection and Enforcement.** From time to time, and subject to all applicable federal and state privacy and security laws and regulations, the Department may conduct a reasonable inspection of the facilities, systems, books and records of Contractor to monitor compliance with this Exhibit E. Contractor shall promptly remedy any violation of any provision of this Exhibit E. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit E. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit E.
- 12) **Due Diligence.** Contractor shall exercise due diligence and shall take reasonable steps to ensure that it remains in compliance with this Exhibit E and is in compliance with applicable provisions of HIPAA, the HITECH Act and the HIPAA regulations, and other applicable state and federal law, and that its agents, subcontractors and vendors are in compliance with their obligations as required by this Exhibit E.
- 13) **Term.** The Term of this Exhibit E-1 shall extend beyond the termination of the Agreement and shall terminate when all Department PHI is destroyed or returned to the Department, in accordance with 45 CFR Section 164.504(e)(2)(ii)(I), and when all Department PI and PII is destroyed in accordance with Attachment A.
- 14) **Effect of Termination.** Upon termination or expiration of this Agreement for any reason, Contractor shall return or destroy all Department PHI, PI and PII that Contractor still maintains in any form, and shall retain no copies of such PHI, PI or PII. If return or destruction is not feasible, Contractor shall notify the Department of the conditions that make the return or destruction infeasible, and the Department and Contractor shall determine the terms and conditions under which Contractor may retain the PHI, PI or PII. Contractor shall continue to extend the protections of this Exhibit E to such Department PHI, PI and PII, and shall limit further use of such data to those purposes that make the return or destruction of such data infeasible. This provision shall apply to Department PHI, PI and PII that is in the possession of subcontractors or agents of Contractor.

Each workforce member who receives information privacy and security training must sign a certification, indicating the member's name and the date on which the training was completed. These certifications must be retained for a period of six (6) years following termination of this Agreement.
- B. **Employee Discipline.** Appropriate sanctions must be applied against workforce members who fail to comply with privacy policies and procedures or any provisions of these requirements, including termination of employment where appropriate.

The Contractor shall retain each person's written confidentiality statement for Department inspection for a period of six (6) years following termination of this Agreement.
- D. **Background Check.** Before a member of the workforce may access Department PHI or PI, a background screening of that worker must be conducted. The screening should be commensurate with the risk and magnitude of harm the employee could cause, with more thorough screening being done for those employees who are authorized to bypass significant technical and operational security controls. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years.

2. Technical Security Controls

- A. **Workstation/Laptop encryption.** All workstations and laptops that store Department PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as

Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved by the Department Information Security Office.

- B. **Server Security.** Servers containing unencrypted Department PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
- C. **Minimum Necessary.** Only the minimum necessary amount of Department PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
- D. **Removable media devices.** All electronic files that contain Department PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.
- E. **Antivirus software.** All workstations, laptops and other systems that process and/or store Department PHI or PI must install and actively use comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- F. **Patch Management.** All workstations, laptops and other systems that process and/or store Department PHI or PI must have critical security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Applications and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
- G. **User IDs and Password Controls.** All users must be issued a unique user name for accessing Department PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every 90 days, preferably every 60 days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:

- 1) Upper case letters (A-Z)
 - 2) Lower case letters (a-z)
 - 3) Arabic numerals (0-9)
 - 4) Non-alphanumeric characters (punctuation symbols)
- H. **Data Destruction.** When no longer needed, all Department PHI or PI must be wiped using the Gutmann or US Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of the Department Information Security Office.
- I. **System Timeout.** The system providing access to Department PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than 20 minutes of inactivity.
- J. **Warning Banners.** All systems providing access to Department PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
- K. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for Department PHI or PI, or which alters Department PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If Department PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- L. **Access Controls.** The system providing access to Department PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
- M. **Transmission encryption.** All data transmissions of Department PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing Department PHI can be encrypted. This requirement pertains to any type of Department PHI or PI in motion such as website access, file transfer, and E-Mail.

- N. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting Department PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3. **Audit Controls**

- A. **System Security Review.** Contractor must ensure audit control mechanisms that record and examine system activity are in place. All systems processing and/or storing Department PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.
- B. **Log Reviews.** All systems processing and/or storing Department PHI or PI must have a routine procedure in place to review system logs for unauthorized access.
- C. **Change Control.** All systems processing and/or storing Department PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

4. **Business Continuity / Disaster Recovery Controls**

- A. **Emergency Mode Operation Plan.** Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of Department PHI or PI held in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.
- B. **Data Backup Plan.** Contractor must have established documented procedures to backup Department PHI to maintain retrievable exact copies of Department PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore Department PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of Department data.

5. **Paper Document Controls**

- A. **Supervision of Data.** Department PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. Department PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
- B. **Escorting Visitors.** Visitors to areas where Department PHI or PI is contained shall be escorted and Department PHI or PI shall be kept out of sight while visitors are in the area.

Department PHI or PI shall not be considered "removed from the premises" if it is only being transported from one of Contractor's locations to another of Contractor's locations.
- E. **Faxing.** Faxes containing Department PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.
- F. **Mailing.** Mailings containing Department PHI or PI shall be sealed and secured from damage or inappropriate viewing of such PHI or PI to the extent possible. Mailings which include 500 or more individually identifiable records of Department PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of the Department to use another method is obtained.
