Patrick O. Duterte, Director

Greetings!

First, I would like to take this opportunity to say thank you to all of you who do so much to serve and care for the children/youth and families of Solano County.

The enclosed flyer is an invitation for you to join us at a Stakeholder's Meeting regarding Therapeutic Behavioral Services (TBS). For many of you, this is, no doubt, a term that is not at all familiar.

What is TBS? It is a very special mental health service that is available to children/youth who have serious emotional problems, are under 21 years old, and have full scope (no share of cost) Medi-Cal.

If a child is living at home, TBS staff can work one-to-one with the child to reduce severe behavior problems. The goal is to try to keep that child from going to a higher level of care, such as a group home. There are also times when this service could assist in preventing a psychiatric hospitalization.

If a child is already living in a group home, for children with very serious emotional problems, a TBS staff person can work with that child in an effort to move them to a lower level of care such as a foster home or back home with his or her own family.

What is the significance of TBS? Along with other mental health services, TBS can assist in helping our children remain in their own homes and community.

The overall goal of this Stakeholder's Meeting is to assist you in learning more about this valuable service, understanding who qualifies for the service, how to access it, and sharing ideas on how to ensure that the service is doing what it is intended to do.

We do hope that you can join us on June 30th.

Again, thank you for your continued support of our young people.

Sincerely,

Debbie Terry Butler, LMFT
Sr. Mental Health Manager
Solano County Children's Mental Health Services
