

# This Computes!

**Department of Health Care Services  
Children's Medical Services Network  
(CMS Net) - Information Bulletin #232**

## **New Addition to the "Medical Supply/Procedure Group"**

A new selection "Medical Foods" was added to the Medical Supply/Procedure Group feature drop down list. However, this new feature is not for use at this time. Do not use the "Medical Foods" selection until further notice. Claims submitted with a SAR issued using this selection will be denied at EDS. A future "This Computes" will notify when and how the "Medical Foods" selection can be used. Instructions will be included at that time.
