(CMS Net) - Information Bulletin #254

Conversion of CMS Legacy Narrative Module to Web Based Case Notes

The CMS Branch will convert the CMS Legacy Narrative module to a web-based module called Case Notes effective Monday, April 28, 2008.

The Case Notes module will use the same web environment as the SAR system. Users should start referring to the web environment as the **CMS Web System** rather than the SAR or E-47 system.

The user manual for Case Notes is available on the [CMS Net website](#) (large file).

Questions regarding Case Notes may be sent via email to cmshelp@dhcs.ca.gov.
