Department of Health Care Services
Children's Medical Services Network
(CMS Net) - Information Bulletin #255

April 2008 Change Cycle

CMS Net Web

1. New/Upcoming Projects

CMS has added a new section on the [CMS Net website](#) called New/Upcoming Projects. This section lists and provides a brief description of all the web projects currently in development and ones recently added.

2. Case Notes

This project has been implemented on the CMS Web system and is available beginning April 28, 2008. The Case Notes module was developed as a replacement for the CMS Legacy Narratives module. However, both modules will be available to use so users can compare and contrast the functionalities and features. CMS has not determined a date for removing the CMS Legacy Narratives module.

Formal training is not available. Users are encouraged to read the [user manual](#) before or while they use the Case Notes module. There will be an announcement on the availability of the CMS Web training environment.

On the Case Notes New/Upcoming projects section, users will find the following information:

- List of case notes subject codes and descriptions
- List of case notes future enhancements and limitations

For help or questions, please call the CMS Help Desk at 916-327-2378 or email CMSHelp@dhcs.ca.gov.

Case Notes Future Enhancements

1. The client search screen will be changed when the Web Correspondence project is implemented. The changes will be reflected wherever the client search functionality is used on the CMS Web system.
2. Display the selected date range at the top of the case notes search results screen.
3. After saving a new case note, redirect the user to the case notes search screen.
4. Add provider type to the SAR automatic case note.
5. Add inpatient number of days to an inpatient SAR automatic case note.
6. Convert the date format on the search screen to display a four-digit year after the search is executed.
7. Add the ability to search by narrative subject descriptions.
8. Display the first and last narrative entry dates for each patient listed on the search screen.
9. Create the ability to have State system administrators print all case notes for a patient at once.
10. Use a 'Select All' check box to replace the 'View/Print All Matching' option on the drop-down list.
11. Change all web form buttons to stylized text.
12. Add date range validation where the End Date cannot be before the begin date.
13. Align the 'Search' button on the case notes search screen.
14. The 'Clear' button on the search case notes screen need to clear all fields and items on the list.
15. Remove unnecessary gray section dividers on the case notes search screen in order to expand the user and subject list.

Case Notes Limitations

1. Users cannot search by narrative subject descriptions.
2. Case notes hyperlink cannot be forwarded in a Web Message.

Case Notes Subject Code and Descriptions

Subject Code	Subject Descriptions	Allow Free-text
