

# This Computes!

Department of Health Care Services  
Children's Medical Services Network  
(CMS Net) - Information Bulletin #263

## June 2008 Change Cycle

The Web Correspondence module will be implemented in a later change cycle.

### CMS Net Legacy

- The new Web Messaging module will replace the Mailman option in the CMS Net legacy system. The Mailman menu option is no longer available.
- Remove the ability to enter a vendor that is not listed on the vendor registration table from the following fields:
  - Patient Registration – Specialist Field
  - Medical Report Request
  - Medical Report Received

### CMS Net Web

- The system will no longer delete the original note associated to a correction when a user attempts to delete the correction that is entered on the same day.

### CMS Net Legacy/Web

- The ability to enter a narrative in Case Notes/Narrative for another county's case is restored.
