(CMS Net) - Information Bulletin #270

## August 2008 Change Cycle

### CMS Net Web

Each evening, certain general topics on CMS Net Legacy narratives are coded as subjects by the system. Beginning the next morning, the web Case Notes module displays the subject codes of narratives and these subject codes can be used as a criterion in web Case Notes when searching for specific narratives from CMS Net Legacy.

In addition, the encoded narratives can be used for ad-hoc reporting on the Business Objects reporting tool.
