Medi-Cal Contracted Enteral Nutrition Products Revised

For identification of contracted enteral nutrition products, [SAR Tools](#) contains a link to the Medi-Cal Provider Manual's section on contracted enteral nutrition products:

[Enteral Nutrition: List of Contracted Products Available](#) (list begins page 3)

Additionally, you may consult the CMSNet web tool: CCS Restricted Enteral Nutrition Products List found at

<http://www.dhcs.ca.gov/services/ccs/cmsnet/Documents/EnteralProducts.pdf>

The CCS Restricted Enteral Nutrition Products List highlights, in yellow, all contracted product names and product codes for quick identification. If the enteral nutrition product is contracted, you **must only use the listed product number**.

When using the above web tool, if the product name and product code are not highlighted in yellow, the product is not yet contracted.

Currently, **standard, diabetic, and metabolic** enteral nutrition products are contracted by Medi-Cal.
