Children's Medical Services Network
(CMS Net) - Information Bulletin #287

Department of Health Services Legacy Website

www.dhs.ca.gov

Going Offline Dec 31st, 2008

CMS Branch has just been notified that the Department of Health Care Services (DHCS) will officially shut down the old www.dhs.ca.gov webpage along with all redirect links to the new Department home page on December 31, 2008. The appropriate DHCS home page is located at www.dhcs.ca.gov and has been in place since July 2007. Any attempt to use the old address after December 31st will result in the message "**The page cannot be displayed**" and users will not be redirected to the new page.

While assessing the impact of this change, it has come to our attention that many of the CCS and CHDP County home pages contain links to the old address www.dhs.ca.gov. These links will not work after December 31st. You should work through your county web services group to update the links on your web pages to reflect the new address.

All other services associated with the **dhs.ca.gov** domain name will remain active such as: Business Objects reporting, legacy email addresses, LISTSERV, etc. Only the legacy DHS web home page is scheduled to be retired.

If you have any questions, please email CMSOnlin@dhcs.ca.gov
