(CMS Net) - Information Bulletin #293

## February 2009 Change Cycle

The CMS Net applications will be down from 5:00 p.m., Friday, February 20<sup>th</sup>, until 12:00 p.m., Saturday, February 21<sup>st</sup> to implement changes included in the February 2009 Change Cycle.

### CMS Net Web

Auto-populate special instructions: Allow users to remove the auto populated special instructions from a SAR.

New timeout message on Access Code screen: Added a new message for users to identify when their session has timed out. For security reasons, your session is no longer active. For your protection, your session expires after 30 minutes of inactivity, and no information is stored in your computer's memory.

Re-arranged the menu options: Relocated the following options under the Authorization menu option: Procedure Code, Medical Supplies and Formulary. Report submenus are created under the Reports menu option.

Updated special instructions for 9R/9U aid codes: Revised the special instructions for 9R and 9U aid codes: This authorization is valid only as long as client's Healthy Families Program (HFP) eligibility is active. The services to treat the CCS eligible condition(s) are carved out of the HFP coverage. If client does NOT have HFP eligibility on the date services are rendered, the claim will NOT be paid. To avoid non-payment you must verify client's HFP eligibility before rendering any services. Please bill the authorized services directly to the Medical Fiscal Intermediary. Please contact the local CCS office for questions or assistance

Case Notes subject: Corrected the Case Note subject line by removing the word "null".

SAR Case Notes: Modified the SAR comments field to allow an apostrophe and other special characters.

New cases without case notes: Removed the error which occurs on the Case Notes Search screen when searching for cases with new case notes.

Email/Copyright Year on Homepage: Corrected the email and the copyright year on the home page.

### **CMS Net Legacy**

View/Print Narratives: Removed the View/Print Narrative option from the legacy system.
