Updated CCS Regulation Citations in Notice of Action and Denial Letters

CMS Information Notice No. 09-02 dated March 20, 2009 provides advice on the renumbering of the CCS program regulations in Title 22 of the California Code of Regulations. This Information Notice contains a "Table of Regulations" which provides a crosswalk of each new regulation section with its corresponding old regulation section; if applicable. The CMS Net generated Notice of Action (NOA) and Denial letters have now been revised to cite the appropriate renumbered regulation sections.

Any county not currently on CMS Net should change their NOA and Denial letters to reflect the correct regulation section citations using the information in the crosswalk.
