

This Computes!

**Department of Health Care Services
Children's Medical Services Network
(CMS Net) - Information Bulletin #334**

March 27, 2010 Change Cycle

The CMS Net applications will be down from 5:00 p.m., Friday, March 26th until 5:00 p.m., Saturday, March 27th to implement changes included in the March 2010. The MTP implementation is scheduled this date as well, additional information will be in a follow-up This Computes notification.

Legacy

Patient Identification

- Issue with Patient Identification lookup has been fixed. Client search by name and alias are in alphabetical order.

CMS Net Web

Batch Correspondence

- Removed the SAR tab from Correspondence Results.
- SARs for counties participating in Batch Correspondence will display under the Letters Created tab.
- C-73 Authorization Cover Letter will be included with the Authorized Provider's SARs for counties participating in Batch Correspondence.

Reports

- **Series Letters Activity Report**
 - Added ability to search for reports within a 30-day date range.
 - Added the ability to search for reports by letter type.
 - Added ability to search for reports in History.
 - Added the ability to search for Future Ticklers reports.
 - Added print button which allow users to print selected report(s).

- **Medical Report Follow-up Report**

- A new Medical Report Request Follow-up report is selectable from the Reports menu. The report allows users to view Medical Report Requests 20 days after the final notice has been generated.

Appointment Scheduling

- The ability to generate appointment letter has been fixed.

Correspondence

- When a NOA-REF is created from CMS Net Web, the free text entered will be saved.
