

# This Computes!

**Department of Health Care Services  
Children's Medical Services Network  
(CMS Net) - Information Bulletin #337**

## **April 10, 2010 Change Cycle**

The CMS Net applications will be down from 5:00 p.m., Friday, April 9th until 5:00 p.m., Saturday, April 10<sup>th</sup> to implement changes included in the April 2010 change cycle.

### **CMS Net Web**

#### **User Security**

- County System Administrators will have the ability to grant MTP User role to users in their county.

#### **MTP web module**

- Closed cases are loaded and PTRs may be generated for the open period prior to the closure date.
- **School screen**
  - Added the ability to page through multiple pages on the search results.
- **Medical Information screen**
  - Added the ability to page through multiple pages on the search results.
  - Allow users to enter the date in the Next Med Rep Due field.
  - Date seen populates in history at the bottom with the managed care provider
  - Added two new options to the Medical Direction table: Transition and Kaiser HMO.
- **MTU Assignment screen**
  - Removed Waiting from the MTU Status table.
- **Therapist Services screen**
  - Removed the field requirement of adding an OT/PT RX date.
  - Removed the validation requiring the OT/PT RX date to be greater than the referral date.
  - Added an asterisk to the Location of Services – Required field.
  - Default MTU in the Location of Services field.

- Removed the requirement of the Monitor Type and Date to be entered when Monitor status is selected in the OT/PT Service.
- Removed the error that occurs when attempting to update the Next Eval Dt field.
- Removed the deactivated therapist from the therapist table.
- **Conference Scheduling**
  - Added the ability to delete a client from a conference.
  - Corrected the print out to show all clients scheduled.
- **Frequency**
  - Corrected the Monitor table
- **Create PTR screen**
  - When clicking on the Create PTR screen the PTR entry screen will be blank and require the user to enter the date, therapy type and therapist before entering the services.
  - Allow a user to add *another PTR* by select *another therapist* with the *same therapy type* for any day.
