Delay in Implementation of A9274

The Medi-Cal Program has notified CMS Branch that implementation of HCPCS code A9274 (External Ambulatory Insulin Delivery System, disposable, each includes all supplies and accessories) will be delayed until September 1, 2010. The code was to have become active on July 1, 2010. Until implementation, the code will remain inactive in the billing system.

CCS Counties should not authorize A9274 until it becomes active in the billing system. Instead, Medi-Cal has advised authorizations should be to B9999 (NOC for Parenteral Supplies) until September 1, 2010.
