Delay for 2011 HCPCS Codes

Due to the change in fiscal intermediaries, the 2011 new code updates (previously scheduled for September 1, 2011) will be delayed until later in the year. You may have noted that the codes have already been listed in the Medi-Cal Manual with the symbol "r" after the code indicating the effective date or end-date of September 1, 2011. These code changes will be removed from the Manual this month. Medi-Cal Bulletins will provide more information.
