CMS Net Web

SAR

- Modify the unit field to only allow only numbers to be entered
- Modify the quantity field to only allow numbers and a period to be entered (.000)
- Modify the amount field to only allow numbers and a period to be entered (.00)

Provider Registration

- Modified the Provider Registration module to allow a correspondence address to be added an MTU.
- Provider Registration now requires entry of a correspondence address before a record may be saved.
- Correction to Provider Registration entry and Provider Search Results to allow a non-medical provider (i.e. Dental provider or School

Reports

- Caseload > Case Distribution Management Report
 - The option to select a caseload has been removed.
 - Changed page breaks and how data is displayed on report so data is logically grouped together.
- SAR > SCG 51 Authorizations
 - Added header "SCG 51 Authorizations" and date/timestamp on the report.
- SAR > SARS with EPSDT-SS Indicator
 - Standardized format on the report.
- Miscellaneous > Quarterly: Authorization Eligibility and Quarterly: Top 10 DX Center Care:
 - Changed date on report list to YYYY-MM-DD so reports will correctly sort by date.
- Miscellaneous > Series Letters Activity Report
 - "Created by User" field: If the field is blank, the system will search letters for all users. If the field is not blank, the system will make sure user clicked the "Find" button next to field before searching.
- Los Angeles Reports > Financial Appointments By Team
 - Changed position of drop down menu so report is easier to select.

Provider Search

- When searching for a provider, the search results did not display the inactive providers. The problem is fixed, the Provider search results will now also display inactive statuses when show all statuses box is checked by the user.

Correspondence

- When the user tried to select the Primary Addressee box, the box was not selectable in some SAR letters. Now the user will be able to select the Primary Addressee to send a copy of the letter.

Patient Search

- The program eligibility end date will only display when present on the patient record.

Legacy

Patient Search

- Edit for invalid Dates of Birth added. Users will be able to enter/search patients using DOB in mm/dd/yyyy format and the system will not allow a DOB prior to 1/1/1920 or a future date.

Insurance Coverage

- The Carrier Type field is now editable.

Medical Eligibility History

- Updated to display the correct name of the 'last updated by' person.

Program Eligibility

- Remove comment field.
- Display client eligibility history to the right of the program eligibility dates to assist System Admins in repairing program periods.

PEDI

Reports

- Correction to Healthy Families/Managed Care Plan (HF/MCP) report to correctly parse by TAB separated report headers
- Reinstated ability to generate the HF/MCP Report by Comma Separated Value (CSV)
