Specialty Infant Enteral Nutrition Products Contracted

Effective January 1, 2012, specialty infant enteral products will become State contracted. Therefore, products for which the manufacturer has signed contracts, specific to the 11-digit code, will remain a benefit item.

Specialty infant enteral nutrition products that have been State contracted can be found in the Medi-Cal Provider Manual, beginning on page 28:

http://files.medi-cal.ca.gov/pubsdoco/publications/masters-mtp/part2/enteral_a04p00.doc

There is a 3-month transition period, beginning January 1, 2012, whereby SAR authorized specialty infant enteral nutrition products remain payable. Beginning April 1, 2012, products authorized by SAR but not State contracted will no longer be payable, despite having a current SAR. (This is a departure from past practices where the product remained payable for the life of the approved SAR).

The following non-contracted specialty infant enteral nutrition products will be end-dated effective December 31, 2011 and will not be payable, beginning April 1, 2012 (regardless of having a valid SAR issued prior to December 31, 2011). CCS Counties should ensure an alternative product is authorized with service date beginning April 1, 2012:

Product ID	Product Label Name
00087001904	ENFAMIL ENFACARE LIPIL-PWDR
