**Department of Health Services
Children's Medical Services Network
(CMS Net) - Information Bulletin #392**

March 2012 Change Cycle

The CMS Net applications will be down from 5:00 p.m., Friday, March 23rd until 5:00 p.m., Saturday, March 24th to implement changes included in the March 2012 change cycle further described below:

CMS Net Legacy:

If the user attempts to modify the insurance carrier which is terminated the follow error will display "Enrollment Date is after Termination Date".

CMS Net Web:

MTP IEP report will now page break in the correct place.

The provider's business name displays the name on the Provider Registration Maintenance screen.

SAR code was modified to update the Authorized date only when the user authorizes the SAR and not when the SAF process updates.

Instructions at the bottom of the Spanish SAR are complete and display an additional line in Spanish.

Letter types with an addressee type of "patient" (TRAN-H and TRAN-I) may now be issued without an error.

Within Web Messages all users may view web messages sent to each county. The general mailbox will display for each office including GHPP and Regional Office as a contact for users to select as a message recipient. All users have access to a office web message folder to check web messages instead of logging in as a 'Mail' user (ex: Mail, Alpine).

Please contact the CMS Net Help Desk at cmshelp@dhcs.ca.gov or (866) 685 – 8449 if you have questions.
