New Business Objects Report CMS 22 - Annual Review

The Annual Review Tickler in CMS Net Legacy is being replaced with a new Business Objects report called "CMS 22 – Annual Review."

The report will prompt you to enter a Review Date (Program End Date) start and end. You can also choose to narrow down your search by using the first letter of the last name, or use the default A > Z to get all clients.

The report has three tabs:

- The "Annual Review Report" tab lists all Active clients with
 - First letter of last name between the letters chosen
 - Review Date (Program End Date) between the dates chosen
- The "Active-Expired or Pend Prg Elig" tab lists all Active clients with
 - First letter of last name between the letters chosen
 - Pending renewal, Active clients where the program eligibility has expired, or Active clients with a blank program end date.
- The "Pending-6 Mo or Older" tab lists all Pending clients
 - First letter of last name between the letters chosen
 - Entered six months or more from the date the report was run.

<http://www.dhcs.ca.gov/services/ccs/cmsnet/Pages/BusinessObjects.aspx> has more information on the Business Objects system, including how to get access, resetting your password, and manuals.
