

# This Computes!

**Department of Health Care Services  
Children's Medical Services Network  
(CMS Net) - Information Bulletin #438**

## **Reminder-Indicate "Category" for Use of Z5999 Code**

The purpose of this Information Bulletin is to reiterate the need to choose the most appropriate "category" in the CMS Net system when authorizing EPSDT SERVICES-UNLISTED/SUPPLEMENTAL SVS (EPSDT-SS) using Code Z5999.

Choosing the appropriate "category" for Z5999 will result in the category's description to appear as the service description of the printed SAR. XEROX has been instructed to price EPSDT-SS services based on the service description of the Z5999 code.

[This Computes #421](#) defines the details of when and how to bill using the Z5999 code. Follow Step 5 and Enclosure 3 to choose the appropriate category.
