October 24, 2014 Change Cycle

The CMS Net applications will be down at 5:00 p.m. on Friday, October 24th through 5:00 p.m. - Saturday, October 25th. This update will implement changes included in the October 2014 change cycle further described below:

Pending Eligibility

Pending Eligibility has moved from CMS Net Legacy to CMS Net web as a new module under the Eligibility menu. Existing Pending Eligibility data has been converted to a new database structure and is viewable on the new Pending Eligibility web screen.

Pending Eligibility screen allows users to:

- Establish current and future Program Eligibility date ranges
- Generate pending interview letters
- Schedule interviews
- Track Medi-Cal Referral information, including set-up of a 60-day follow-up tickler

Report

The Follow-up Tickler Report has been modified to include the Medi-Cal Pending tickler selection to follow-up on clients referred to Medi-Cal as tracked on the Pending Eligibility screen. The report is accessed via the Reports Menu, Miscellaneous Reports.

Track Transactions

The Pending Eligibility changes will now be available in the Track Transactions Report in the web. The remainder of the Eligibility transactions will remain in the Legacy Track Transactions Report until the entire Eligibility module is moved to the web.

The Pending Eligibility Web Manual Section 51 is located on the Systems of Care Division website: [CMS Manual](#)

An informative webinar with a demonstration of the Pending Eligibility web screen functionality is located on the Division's webinar page: [CMS Webinars](#)
