**Department of Health Care Services
Children's Medical Services Network
(CMS Net) - Information Bulletin #453**

May 1, 2015 Change Cycle

The CMS Net applications will be down at 5:00 p.m. on Friday, May 1st through 6:00 a.m. Monday, May 4th. This update will implement changes included in the May 2015 change cycle further described below:

Financial Eligibility

- Updated to auto default the reason closed to "failure to pay fee(s)" when checking "Failure to Pay" checkbox is marked on an active case

Business Objects

- Business Objects tables Patient Registration, Address, Address Phone, Program Eligibility, Client Eligibility, and Referral will now load incrementally (nightly process will only load adds, updates, and deletes). This change will affect the daily load process, changing the daily load time from noon to early morning
- Corrected Program Eligibility Table, "Fin Reason Not Required" and "Fin Reason Inelig" fields. They were mapped to each other's position/field
- Correction to the Case Manager 1 and 2 calculations in Patient Registration. If the user is listed in the "Case Manager 1" field, do not show the user in "Case Manager 2" (this was only happening if the county did not use Nurse Case Manager or Patient Financial Service Worker caseload roles)

Reports

- Legacy reports Medi-Cal Managed Care Plans, MEDS Reconciliation, and Productivity Report will now be in Business Objects
- Legacy report Follow Up Report will now be in the legacy Follow Up module Series Letter Activity Report - Corrected defect where the "Created by User" did not filter properly

Client Search Results

- Corrected defect to retain the previously searched client in the search results while navigating through the CMS Net web application
- Corrected defect to have new registered client auto selected when user returns to the Search Client page
- Corrected the advanced search next record link defect

Coverage

- Corrected defect where policy number was updated to “ask client” when adding a stop date to an existing coverage

Batch Correspondence

- Updated to display the Caseload code in the Correspondence Results

Correspondence

- Corrected defect where after saving and editing a letter, the remove (x) icon was missing from the County Office entry
- G-61 (Genetically Handicapped Persons Program (GHPP) referral to California Children’s Services (CCS)) – Corrected defect where address block was adding the mother’s maiden name to the primary addressee address and contact information
- Notice of Privacy Practices (NPP) – The updated NPP is now available as a Miscellaneous Correspondence or as an attachment to some correspondences.
- C-40, G-40 (Fee payment letters) – Added payment address to invoice. Corrected Spanish translation of invoice

Caseload

- Caseload members with future activation are visible in the User Details section of Caseload maintenance

Referral Tracking

- Updated to disallow entry of procedure codes on a Service Referral for inpatient provider types
- Added a “preview only” watermark on all correspondences viewed from the Return Request Reason History section

Case Notes

- Updated to allow viewing of case notes on a non-registered case entered through Referral Tracking
- Corrected defect after an inpatient SAR is modified the number of days calculation is updated correctly

Provider Electronic Data Interchange (PEDI)

- Added Medical Therapy Unit (MTU) name and MTU Status to the PEDI client identification header
- Added security enforcement to disallow users with a suspended account from signing into PEDI
- PEDI Referral Report (Search Letters) - Corrected defect where records truncated after 25 retrieved results. Added a Next/Previous link options to view previous or additional results

LDAP User Security

- LDAP dependency is now removed for users who do not use Legacy CMS Net application

Mark Duplicate

- Corrected defect with the “find button” when searching for a client on the Mark Duplicate page
- Corrected defect when navigating from SCI Inquiry to Mark Duplicate tab
