Children's Medical Services Network
(CMS Net) - Information Bulletin # 81**

Sutter Memorial Hospital and Sutter General Hospital Authorizations

Effective immediately please send **all** authorizations issued for inpatient and outpatient services at Sutter Memorial Hospital and Sutter General Hospital to:

SUTTER HOSPITAL
5151 F STREET, ROOM 753
SACRAMENTO, CA 95819
ATTN: Donna Hodge

This includes authorizations for physician and special care center services to be performed at these Sutter hospitals.

The two Sacramento Sutter Hospitals have a centralized CCS Unit, which receives, logs and distributes all CCS authorizations. The CCS coordinator at Sutter is Donna Hodge; she is responsible for distributing the CCS authorizations to the appropriate entities at the hospital.

CMSNet SARs (as well as the Legacy system authorizations) should not be mailed to the PMF default address, but should be sent directly to the address cited above. The October change cycle for CMSNet installed a system change which accommodates changing the provider address, as directed above (even though the PMF will not change), so that the authorizations will be printed with the correct address.

Note: The Sutter Healthcare System has multiple hospitals and outpatient facilities, under different names, in several different counties. This request applies only to the two hospitals cited above.
