CHDP ANNUAL REPORT FY03-04 OVERVIEW AND FINDINGS

OVERVIEW

Program Description

As mandated by Section 124025 of the Health and Safety Code, the Child Health and Disability Prevention (CHDP) program provides complete health assessments for the early detection and prevention of disease and disabilities in low-income children and youth. A complete health assessment consists of a health history, physical examination, developmental assessment, nutritional assessment, dental assessment, vision and hearing tests, tuberculin test, laboratory tests, immunizations, health education/anticipatory guidance, and referral for any needed diagnosis and treatment. The State of California has established standards for the program and provides financing, but the program is operated at the local level by health departments in each California county and the cities of Berkeley, Long Beach and Pasadena.

The CHDP program is also responsible for providing outreach to target populations to increase participation in the program, and providing health education to both agencies and residents at the community level to increase the knowledge and acceptance of preventive services. Additionally, CHDP oversees the screening and follow-up components of the federally-mandated Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program for Medi-Cal eligible children and youth; provides preventive health assessments for non-Medi-Cal eligible children; and monitors the school entry program which requires that all children entering the first grade or kindergarten have either a certificate of health examination or a waiver on file at their school.

Children's Medical Services Branch of the California Department of Health Care Services began the implementation of a new funding adjustment six months prior to the beginning of FY03-04 that is based on the premise that since most of the children covered by CHDP are eligible for comprehensive health care under Medi-Cal or the Healthy Families program, future CHDP eligible children are presumed to be eligible for Medi-Cal. Starting January 1, 2003, the CHDP Gateway program used the CHDP Program functions as a "gateway" to maximize enrollment of uninsured children in Medi-Cal or Healthy Families programs.

The Gateway program results in a pre-enrollment of eligible children into full scope Medi-Cal for up to two months when a child visits a CHDP provider's office. After a pre-enrollment transaction, the child is immediately eligible for full scope Medi-cal including any necessary follow-up care for problems identified during the health assessment. During the two-month pre-enrollment period, the family is encouraged to complete the joint Medi-Cal/Healthy Families application to ensure ongoing health care coverage.

Data Source

The CHDP Health Assessment Data for FY 2003-2004 reflects data that were collected prior to the Gateway implementation, and data that were collected during the implementation of Gateway. Starting July 1, 2003, CHDP providers had six-months to adopt the Gateway automated pre-enrollment process. There are two versions of the *Confidential Screening/ Billing Report (PM 160)* in use. Providers for most Medi-Cal fee for service and State-funded health assessments use the standard PM 160. The "Information-Only" PM 160 is used to report services rendered to Medi-Cal children enrolled in managed care plans or receiving services in a Federally Qualified Health Center.

After January 1, 2004 eligible children who were not full scope Medi-Cal recipients were required to pre-enroll in Medi-Cal through Gateway in order to access CHDP health assessment services. Additionally, the Gateway transaction became the only way providers were able to be paid for CHDP services to children not already Medi-Cal full scope recipients.

Because more than one PM 160 form may be submitted for an individual child, and a child may have more than one exam, a process to remove duplicate records was used to determine the total number of children served. Identical records were identified by comparing names and birthdates or by comparing Medi-Cal ID numbers. With the implementation of the Gateway process, duplicate records were identified by comparing Medi-Cal Identification Numbers.

FINDINGS

Recipient Demographics

This report on health assessments is based on information obtained from providers completing the CHDP Confidential Screening and Billing Forms (PM 160). The data captured pertains to CHDP services provided between July 1, 2003 and June 30, 2004.

Table 1 shows that during fiscal year FY03-04, the CHDP program provided preventive health services to an estimated 2,065,237 children (unduplicated count).

From FY93-94 to FY97-98 there was a gradual increase in the number of children served by CHDP. Overall, these changes represent an average increase of 4.7 percent per fiscal year (see Table 1). From FY98-99 to FY03-04, the total children served by CHDP decreased on average. This decline could be attributed to children being transferred to other health care programs, such as Healthy Families. Compared to FY02-03, there were 49,243 fewer children served by the CHDP program in FY03-04.

Comparing the total number served by different funding sources from FY03-04 to FY02-03, 34,523 more Medi-Cal Eligible Fee-For-Service (Medi-Cal FFS) children were reported as receiving services in 2003-04, which is a 9.0 percent increase over the previous year. There were 114,932 more Information Only/Prepaid Health Plan (Info/PHP) children served in FY03-04, a 13.0 percent increase. Additionally, there were 619,081 fewer State-funded children served in FY03-04, which represents a 73.2 percent decrease over the previous year. This decrease can be attributed to the implementation of Gateway. Some children that could have been considered State funded in FY02-03 may have been considered as Gateway funded in FY03-04.

Of the 2,065,237 children served by CHDP during FY03-04, 69.1 percent were age 0 to 5, 20.1 percent were age 6 to 12, 10.7 percent were age 13 to 20 and 0.01 percent of the children did not have their age indicated (see Graph 1).

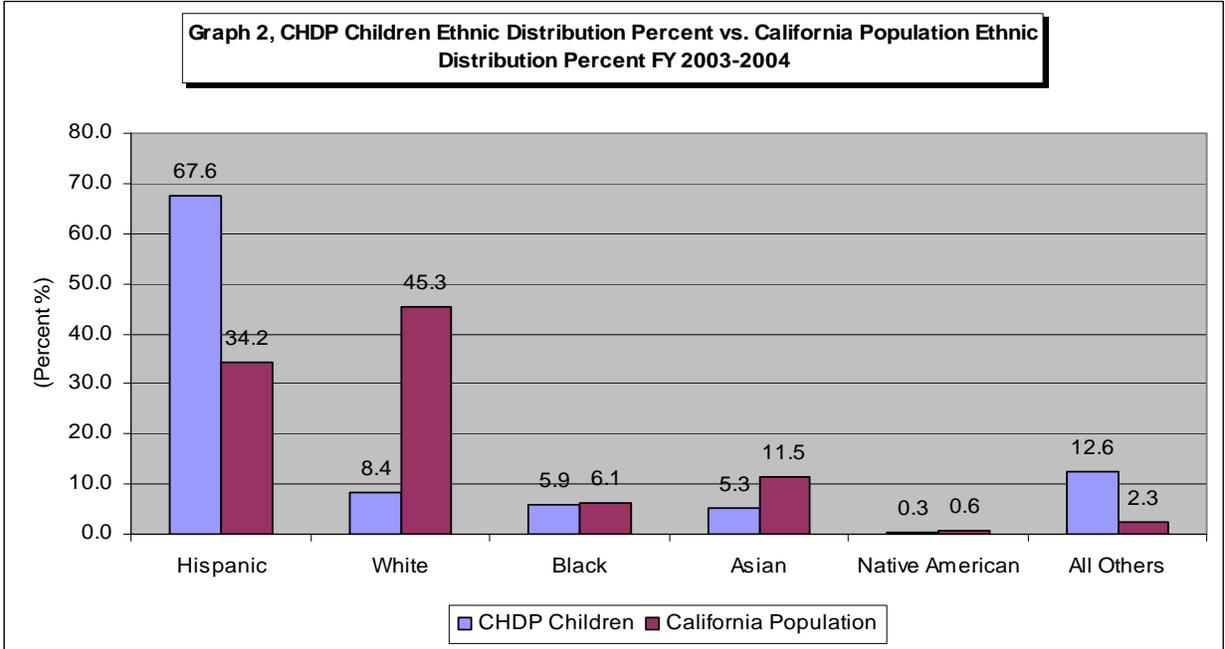

Of the 2,065,237 children served by the CHDP program, 67.6 percent were Hispanic, 8.4 percent were White, 5.9 percent were Black, 5.3 percent were Asian, 0.3 percent were Native American and 7.5 percent were Other (i.e., Filipino, Pacific Islander and Other). There were 5.1 percent of the children served whose ethnicity was not reported for CHDP in FY03-04.

According to the California Department of Finance¹, the FY03-04 California population was 34.2 percent Hispanic, 45.3 percent White, 6.1 percent were Black, 11.5 percent Asian, 0.5 percent were Native American and 3.2 percent were others (see Graph 3).

During FY03-04, the CHDP program provided services to 1,017,040 (49.3 percent) females and 1,042,999 (50.5 percent) males. For 5,198 (0.3 percent) of the children, the gender was not indicated.

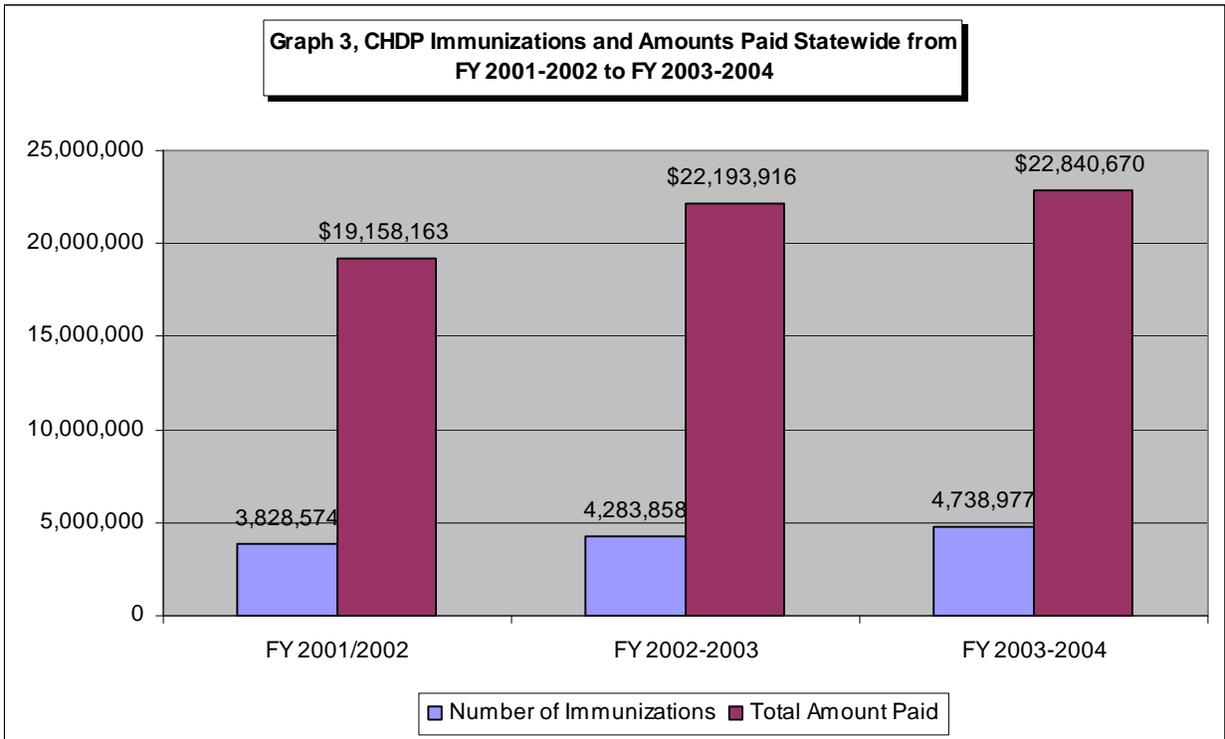

¹ State of California, Department of Finance, *California County Race/Ethnic Population Estimates and Components of Change by Year, July 1, 2000–2004*. Sacramento, California, March 2006.

Immunizations

The CHDP program provided 4,738,977 individual immunizations in FY02-03, 455,119 more immunization shots compared to FY02-03. This represents a 10.6 percent increase over FY 02-03 when 4,283,585 immunizations were provided by CHDP (see Graph 3).

The cost of an immunization is composed of two parts: the administration fee, and the cost of the vaccine. In the CHDP program, the Federal Vaccine-for-Children (VFC) program supplies the majority of vaccines. Therefore, the average cost of vaccines includes primarily the administration fee and the costs for the few vaccines that providers must purchase directly. The amount paid for CHDP immunizations during FY03-04 totaled \$22,840,670, an increase of \$646,691 (15.1 percent) from \$22,193,916 in FY02-03. In FY03-04, the average cost per immunization was \$4.82. This is a \$0.36 (7.0 percent) decrease from \$5.18 per immunization in FY02-03.

Type of Providers

During FY03-04, 21 provider types (including one category unknown) provided CHDP services to Medi-Cal FFS, State-funded and Gateway children. Data gathered from Information Only PM 160's did not have provider type indicated. Among the various provider types, 17.4 percent of the services were provided by Physician Solo Practices, 16.7 percent of the services were provided by Physician Groups, 5.4 percent of the services were provided by Rural Health Clinics, 1.7 percent of the services were provided by Clinic Labs/Lead, 2.0 percent of the services were provided by County Health Department Clinics, and 2.6 percent of the services were provided by Community Clinics.

Expenditures

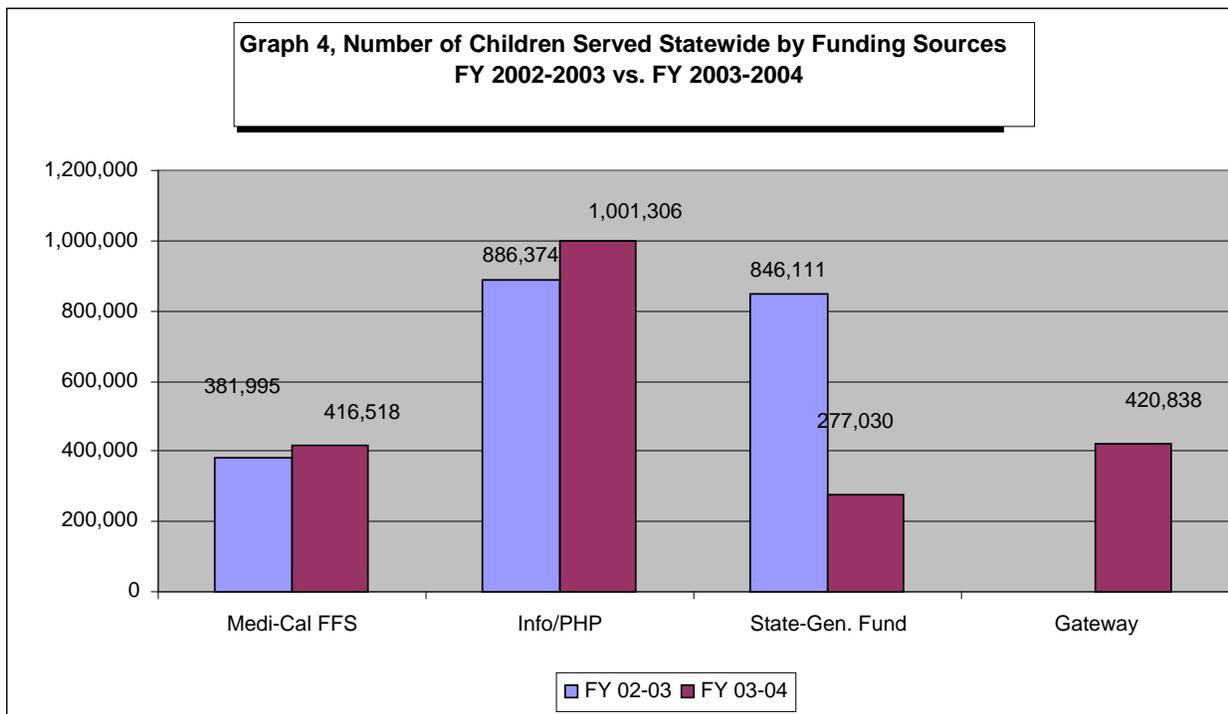

During FY03-04, a total of \$77,625,331 was paid for both Medi-Cal Fee-For-Service (FFS) and State-funded CHDP preventive health examinations (See Table 3). This is a decrease of \$18,774,373 (19.5 percent) from the \$96,399,704 paid in fiscal year 2002-2003.

Of the \$77,625,331 paid for CHDP services in FY03-04, \$31,103,279 was paid for services to 416,518 Medi-Cal FFS funded children at an average cost of \$74.67 per child. The number of children for whom services were paid by Medi-Cal FFS in FY03-04 represents a 9.0 percent increase from the 381,995 Medi-Cal FFS children served in fiscal year 2002-2003 (See Graph 4). This shift can be partially attributed to the implementation of Gateway and the transition of children to MCMC (Medi-Cal Managed Care) Health Plans.

Over the years, the Medi-Cal program has been undergoing a gradual transition from Medi-Cal FFS to MCMC in the most populated counties. MCMC providers are required to submit an “Information-Only” PM 160 when children receive a CHDP examination. In FY 03-04, 1,001,306 Info/PHP children were served by CHDP program, a 13.0 percent increase over FY 02-03. Because the PM 160 “Information-Only” form is used as a reporting form rather than a billing form, expenditure data is unavailable for this group of children. Therefore, those children cannot be included in calculating the average cost per child for CHDP services.

FY 93/94	\$103,672,199	\$52,070,591	\$0	\$155,742,790

For State-funded CHDP services, providers were paid \$15,466,494 for CHDP preventive health exams and services to 227,030 State-funded children with an average cost of \$68.13 per child. When compared to FY02-03 when providers were paid \$67,382,973 for CHDP preventive health exams and services, FY03-04 data show that there was a \$51,916,479 or a 77.0 percent decrease in State-funding over the year. This drop is in part due to the implementation of Gateway and the increased provision of Medi-Cal Managed Care Plan services accompanied by a decline in Medi-Cal Fee for Service services.

Target Population

The CHDP target population is comprised of (1) children eligible for Medi-Cal FFS less than 21 years of age^{2,3}, and (2) non Medi-Cal eligible children under 19 years of age from families with incomes under 200 percent of the FPL.⁴ Children that meet these criteria qualify for health assessments through the CHDP program.

The CHDP estimated target population for FY03-04 was 4,729,010.⁵ The total number of children served (2,065,237) accounted for 42.6 percent of the target population. The Medi-Cal funded estimated target population was 3,035,418, of which 1,838,207 (39.2%) were served by CHDP. The State-funded estimated target population was 1,639,592, of which 227,030 (48.9%) were actually served by the CHDP program (see Graph 5).

Counties Serving Over 50,000 Children

During FY 2003-04, there were ten counties that served over 50,000 CHDP children. Those counties were Los Angeles, Orange, San Diego, Fresno, San Bernardino, Sacramento, Riverside, Kern, Santa Clara, and Alameda. These counties served approximately 73.0 percent of the children statewide. Los Angeles served the most children at 712,564, which represents 34.5 percent of the children statewide. (Note: the Los Angeles County numbers exclude the cities of Long Beach and Pasadena, which report separately). See Graph 6.

Tables

Data discussed in the Overview and Findings are subject to more detailed analysis in the following tables. The analysis is broken into 11 sections. The first four sections deal with the count of children served and health assessments provided. The sections are arrayed by funding source. Part 5 deals with the count of specific assessments that are arrayed by age, ethnicity, and county. Part 6 deals with health providers, and Part 7 deals with immunizations given by the providers. Part 8 deals with other tests given. The rest of the data are county specific.
