## CHDP ANNUAL REPORT FY04-05 OVERVIEW AND FINDINGS

### OVERVIEW

#### Program Description

The Children's Medical Services Branch (CMS) of the California Department of Health Care Services, as mandated by Section 124025 of the Health and Safety Code through the Child Health and Disability Prevention (CHDP) program, provides complete health assessments for the early detection and prevention of disease and disabilities in low-income children and youth. A complete health assessment consists of a health history, physical examination, developmental assessment, nutritional assessment, dental assessment, vision and hearing tests, tuberculin test, laboratory tests, immunizations, health education/anticipatory guidance, and referral for any needed diagnosis and treatment. The State of California has established standards for the program and provides financing, but the program is operated at the local level by health departments in each California county and the cities of Berkeley, Long Beach and Pasadena.

The CHDP program is also responsible for providing outreach to target populations to increase participation in the program, and providing health education to both agencies and residents at the community level to increase the knowledge and acceptance of preventive services. Additionally, CHDP oversees the screening and follow-up components of the federally-mandated Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program for Medi-Cal eligible children and youth; provides preventive health assessments for non-Medi-Cal eligible children; and monitors the school entry program which requires that all children entering the first grade or kindergarten have either a certificate of health examination or a waiver on file at their school.

A few months prior to the beginning of FY04-05, CMS began a new funding adjustment based on the premise that CHDP eligible children are presumed to be eligible for Medi-Cal. Starting January 1, 2003, the CHDP Gateway program used the CHDP program functions as a "gateway" to maximize enrollment of uninsured children in Medi-Cal or Healthy Families programs. After January 1, 2004, eligible children who were not full scope Medi-Cal recipients were required to pre-enroll in Medi-Cal through Gateway in order to access CHDP health assessment services. Additionally, the Gateway transaction became the only way providers were able to be paid for CHDP services to children not already Medi-Cal full scope recipients.

#### Data Source

CHDP data are derived from Confidential Screening/Billing Report (PM 160) forms. Because more than one PM 160 form may be submitted for an individual child, and a child may have more than one exam there could be identical records for an

individual child. Duplicate records are removed by sorting out records with identical Medi-cal Identification Numbers.

## FINDINGS

### Recipient Demographics

The data in this report pertain to CHDP services provided between July 1, 2004 and June 30, 2005. Table 1 shows that during fiscal year FY04-05, the CHDP program provided preventive health services to an estimated 2,093,105 children (unduplicated count). From FY93-94 to FY97-98 there was an increase in the number of children served by CHDP. Overall, these changes represent an average increase of 4.7 percent per fiscal year (see Table 1). From FY98-99 to FY04-05, the total children served by CHDP decreased on average. This decline could be attributed to children being transferred to other health care programs, such as Healthy Families. However, compared to FY03-04, there were 27,868 more children served by the CHDP program in FY04-05.

Comparing the total number served by different funding sources from FY04-05 to FY03-04, 3,314 more Medi-Cal Eligible Fee-For-Service (Medi-Cal FFS) children were reported as receiving services in 2004-05, which is a 0.7 percent increase over the previous year. With the new Gateway program, there was an increase of 38,438, or 8.4 percent over the previous fiscal year. There were 175,130 more Information Only/Prepaid Health Plan (Info/PHP) children served in FY04-05, a 14.9 percent

increase. Additionally, there were 189,014 fewer State-funded children served in FY04-05 than in FY03-04, which represents an 83.0 percent decrease over the previous year. This decrease can be attributed to the implementation of Gateway. Some children that could have been considered State funded in FY03-04 may have been considered as Gateway funded in FY04-05.

Of the 2,093,105 children served by CHDP during FY04-05, 71.9 percent were age 0 to 5, 17.8 percent were age 6 to 12, 10.2 percent were age 13 to 20 and 0.1 percent of the children did not have their age indicated (see Graph 1).

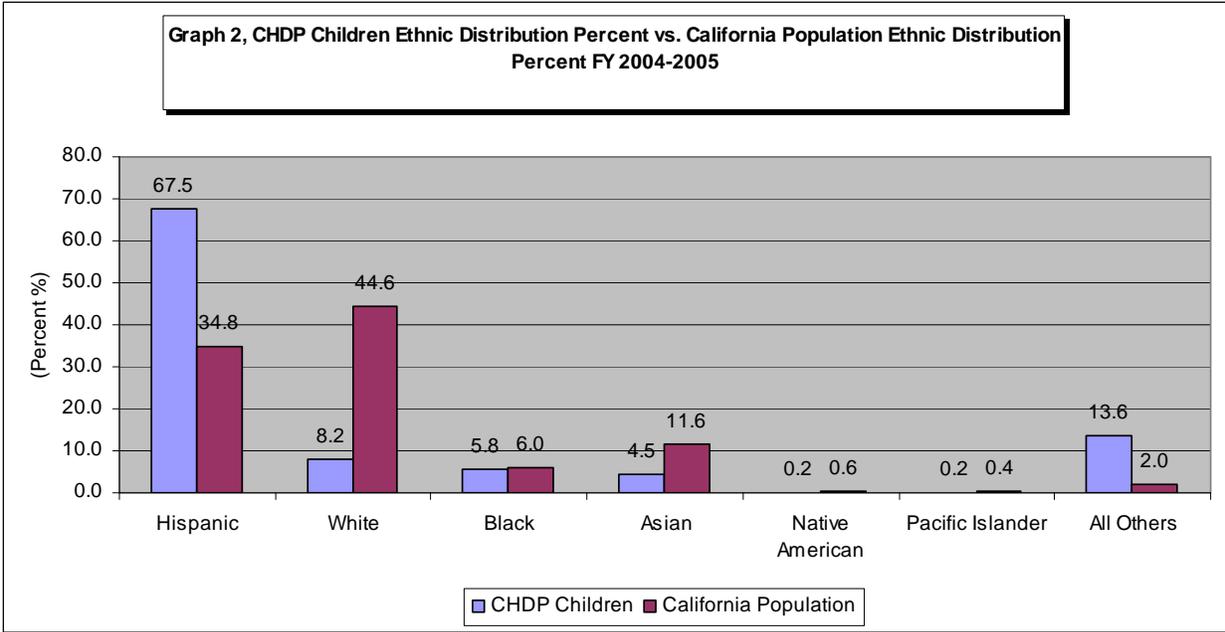

Of the 2,093,105 children served by the CHDP program, 67.5 percent were Hispanic, 8.2 percent were White, 5.8 percent were Black, 4.5 percent were Asian, 0.2 percent were Native American, 0.2 percent were Pacific Islander, and 8.3 percent were Other (i.e., Filipino and Other). There were 5.3 percent of the children served whose ethnicity was not reported for CHDP in FY04-05.

According to the California Department of Finance<sup>1</sup>, the FY04-05 California population was 34.8 percent Hispanic, 44.6 percent White, and 6.0 percent were Black, 11.6 percent Asian, 0.6 percent were Native American, 0.4 percent Pacific Islander and 2.0 percent were others (see Graph 2).

During FY04-05, the CHDP program provided services to 1,027,078 (49.1 percent) females and 1,061,177 (50.7 percent) males. For 4,850 (0.2 percent) of the children, the gender was not indicated. (See Table 82).

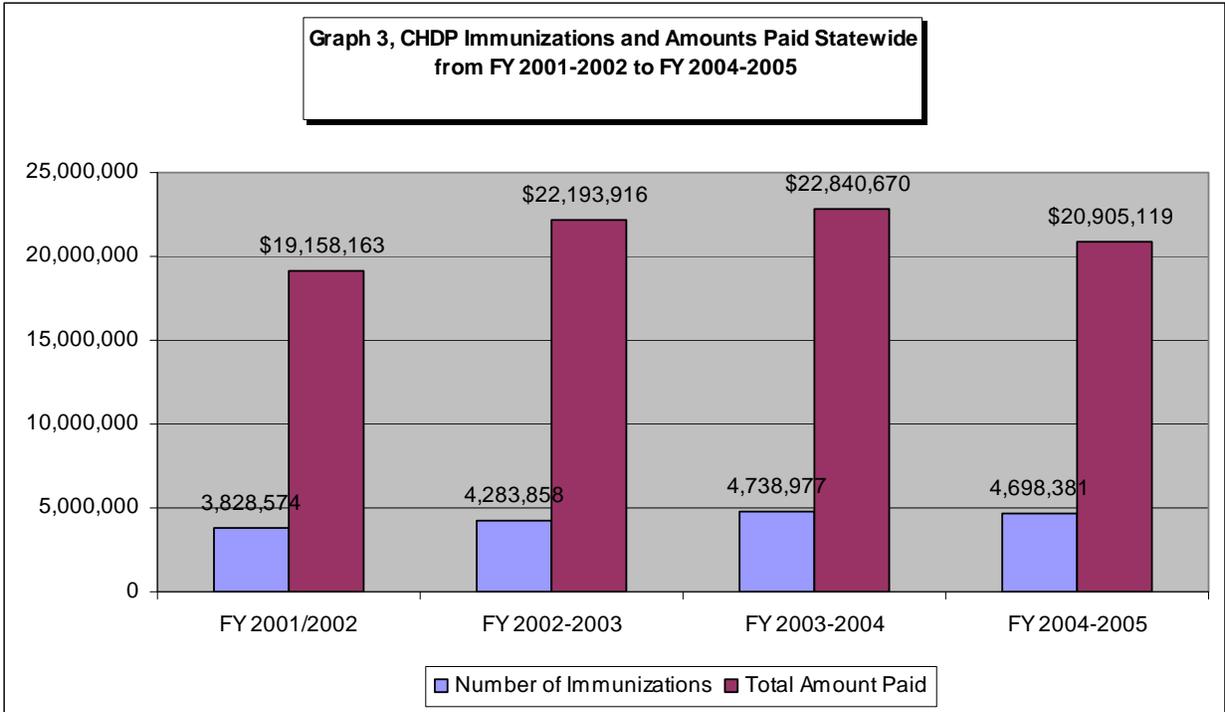

<sup>1</sup> State of California, Department of Finance, California County Race/Ethnic Population Estimates and Components of Change by Year, July 1, 2000–2004. Sacramento, California, March 2006

**Immunizations**

The CHDP program provided 4,698,381 individual immunizations in FY04-05, 40,596 fewer immunization shots compared to FY03-04. This represents a 0.8 percent decrease over FY 03-04 when 4,738,977 immunizations were provided by CHDP (see Graph 3).

The cost of an immunization is composed of two parts: the administration fee, and the cost of the vaccine. In the CHDP program, the Federal Vaccine-for-Children (VFC) program supplies the majority of vaccines. Therefore, the average cost of vaccines includes primarily the administration fee and the costs for the few vaccines that providers must purchase directly. The amount paid for CHDP immunizations during FY04-05 totaled \$20,905,119, a decrease of \$1,935,471 (8.5 percent) from \$22,193,916 in FY03-04. In FY04-05, the average cost per immunization was \$4.45. This is a \$0.37 (7.7 percent) decrease from \$4.82 per immunization in FY03-04.

**Type of Providers**

During FY04-05, 21 provider types (including one category unknown) provided CHDP services to Medi-Cal FFS, State-funded and Gateway children. Data gathered from Information Only PM 160's did not have provider type indicated. Among the various provider types, 15.3 percent of the services were provided by Physician Solo Practices, 16.2 percent of the services were provided by Physician Groups, 2.6 percent of the services were provided by Rural Health Clinics, 1.2 percent of the services were provided by Clinic Labs/Lead, 1.2 percent of the services were provided by County Health Department Clinics, and 2.3 percent of the services were provided by Community Clinics.

**Expenditures**

During FY04-05, a total of \$70,853,519 was paid for both Medi-Cal Fee-For-Service (FFS), Gateway, and State-funded CHDP preventive health examinations (See Table 3). This is a decrease of \$6,771,812 (8.7 percent) from the \$77,625,331 paid in fiscal year 2003-2004.

Of the \$70,853,519 paid for CHDP services in FY04-05, \$32,051,121 was paid for services to 419,832 Medi-Cal FFS funded children at an average cost of \$76.34 per child. The number of children for whom services were paid by Medi-Cal FFS in FY04-05 represents a 0.8 percent increase from the 416,518 Medi-Cal FFS children served in fiscal year 2003-2004 (See Table 2). This shift can be partially attributed to the

implementation of Gateway and the transition of children to MCMC (Medi-Cal Managed Care) Health Plans.

Gateway, in its second year, paid providers \$36,159,975 for services to 458,821 children at a cost of \$78.80 per child. In FY03-04, \$31,055,558 was paid to providers for services to 420,383 children at a cost of \$73.97. Over the year, the number of Gateway children increased by 8.4 percent and the cost per child increased by 6.1 percent.

For State-funded CHDP services, providers were paid \$2,642,423 for CHDP preventive health exams and services to 38,016 State-funded children with an average cost of \$69.51 per child. The number of State-funded children decreased over the year from 227,030 in FY03-04 to 38,016 in FY0405, representing an 83.3 percent decrease. State funding fell as well. It went from \$15,466,484 in FY03-04 to \$2,642,423 in FY0405, representing an 82.9 percent decrease in State-funding over the year. The decreases over the year are in part due to the implementation of Gateway and the increased provision of Medi-Cal Managed Care Plan services accompanied by a decline in Medi-Cal Fee for Service services.

Over the years, the Medi-Cal program has been undergoing a gradual transition from Medi-Cal FFS to MCMC in the most populated counties. MCMC providers are required to submit an "Information-Only" PM 160 when children receive a CHDP examination. In FY 04-05, 1,176,436 Info/PHP children were served by the CHDP program, a 14.9 percent increase over FY 03-04. Because the PM 160 "Information-Only" form is used as a reporting form rather than a billing form, expenditure data is unavailable for this group of children. Therefore, those children cannot be included in calculating the average cost per child for CHDP services.

## Target Population

The CHDP target population is comprised of (1) children eligible for Medi-Cal FFS less than 21 years of age, and (2) non Medi-Cal eligible children less than 19 years of age from families with incomes under 200 percent of the FPL. Children that meet these criteria qualify for health assessments through the CHDP program.

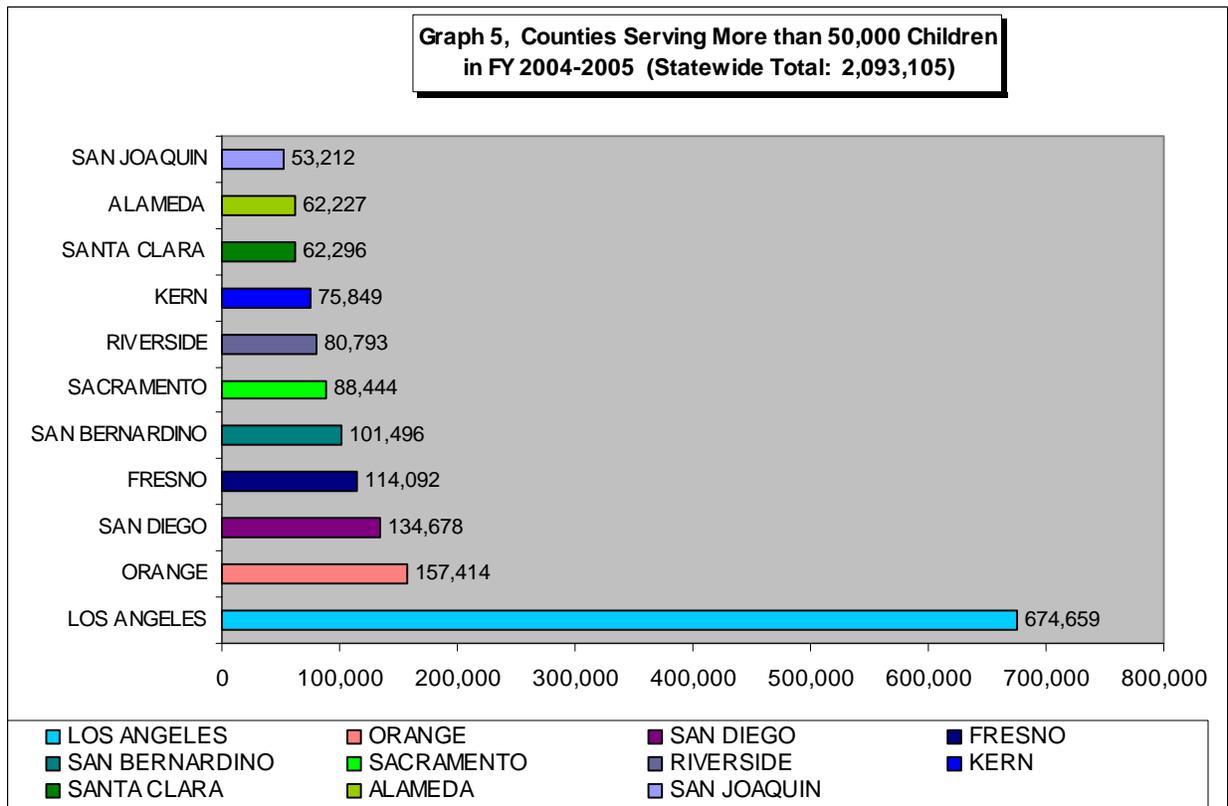

The CHDP estimated target population for FY04-05 was 5,072,778.<sup>2</sup> The total number of children served (2,093,105) accounted for 41.3 percent of the target population. The Medi-Cal funded estimated target population was 3,430,807, of which 2,055,089 (59.9%) were served by CHDP program. The State-funded estimated target population was 1,641,971, of which 38,016 (2.3%) were actually served by the CHDP program (see Graph 5). In FY03-04, the number of State-funded children actually served was 227,030. Between July 1, 2004 and June 30, 2005, the number of State-funded children that were served declined by 83.2 percent.

## Counties Serving Over 50,000 Children

During FY 2004-05, there were 11 counties that served over 50,000 CHDP children. In FY03-04, ten counties served over 50,000. Those counties for FY0405 are: Los Angeles, Orange, San Diego, Fresno, San Bernardino, Sacramento, Riverside, Kern, Santa Clara, Alameda and San Joaquin. These counties served approximately 73.0 percent of the children statewide. Los Angeles served the most children at 674,659, which represents 32.2 percent of the children statewide (see Graph 5). Please note that the Los Angeles County numbers exclude the cities of Long Beach and Pasadena, which report separately.

## Tables

Data discussed in the Overview and Findings are subject to more detailed analysis in the following tables. The analysis is broken into 11 sections. The first four sections deal with the count of children served and health assessments provided. The sections are arrayed by funding source. Part 5 deals with the count of specific assessments that are arrayed by age, ethnicity, and county. Part 6 deals with health providers, and Part 7 deals with immunizations given by the providers. Part 8 deals with other tests given. The rest of the data are county specific.
