2010 Pediatric Nutrition Surveillance (1)
California
Summary of Trends in Age Distribution
Children Aged < 5 Years (2)

Summary of Trends in Age Distribution (3)				
Year	Number Included in Analysis (4)	0-11 Months %	12-23 Months %	24-59 Months %
2010	1,135,664	44.5	20.4	35.1
2009	1,275,501	44.8	21.5	33.7
2008	1,193,383	46.5	21.4	32.1
2007	1,151,897	47.7	20.5	31.8
2006	1,240,441	46.2	20.6	33.2
2005	999,402	41.1	19.6	39.3
2004	976,306	41.3	19.4	39.3
2003	965,113	40.2	19.8	40.0
2002	921,378	40.4	20.0	39.7
2001	849,824	40.2	20.3	39.5
2000	1,007,871	38.6	20.1	41.3
1999	1,046,781	37.4	20.6	42.0
1998	1,105,213	37.4	20.8	41.9
1997	1,164,427	37.6	20.8	41.6
1996	1,233,324	38.0	21.1	40.8
1995	1,234,191	39.8	21.4	38.8
1994	1,215,162	41.2	21.5	37.4
1993	1,152,785	43.1	21.9	35.0

(1) Reporting period is January 1 through December 31.

(2) Analyses based on one record per child.

(3) Records rejected if date of birth and date of visit unknown.

(4) Excludes records with unknown data or errors.

* Percentages are not calculated if < 100 records are available for analysis after exclusions.
