

# Advisory Workgroup #1: Enhancing California Community Transitions (CCT) Delivery

HCBS Advisory Workgroup

March 2, 2016

# Purpose

- Engage in a public process to enhance the design, development, and evaluation of the Money Follows the Person (MFP) grant-funded CCT program
- Obtain input from eligible individuals, their families, providers, and other interested parties to enhance services provided to beneficiaries transitioning from long-term institutional settings to, and/or receiving care in, the community

# Workgroup One

- Enhancing CCT Delivery
  - Purpose/Mission: Engage experts to provide recommended solutions on ways to strengthen ongoing CCT operations; identify opportunities to align CCT with the Home and Community-Based Services (HCBS) Final Rule; enhance the beneficiary experience, health outcomes, and the quality of services provided.

# Meeting One

## Meeting Discussion

- Review of the social and medical model of care
- Discussion on the perceived exclusivity of and conflict between the two models

## Meeting Recommendations and Outcomes

- Additional Resources on HCBS Final Rule and Statewide Transition Plan
- Data on CCT Transition Numbers

# Meeting Two

## **Meeting Discussion**

- Discuss and propose recommendations on CCT reimbursement structure
- Review of the CCT transition process including best practice recommendations from providers conducting transitions
- Initial discussions with how to work collaboratively with Managed Care Plans and how to ensure continuity of care

## **Meeting Recommendations and Outcomes**

- Reimbursement Survey for CCT Lead Organizations (LOs)
- Community Physician Policy
- Additional Information on Vacancy Policy for Tax Credit Housing Units and Managed Care Organizations by County
- Establishing Connections between Managed Care Organizations and LOs

# Meeting Three

## **Meeting Discussion**

- Guiding principles of person-centered care
- How to strike a balance between individuals' wants and needs; including how to adhere to person-centered care when there are limited community resources/options
- Recommendations on how to ensure person-centered care within the CCT transition process

## **Meeting Recommendations and Outcomes**

- Recommendations for Assessment Tool/Care Plan Revisions
- Identification of Additional Training Resources and Materials

# Meeting Four - Today

## Meeting Discussion

- Review Workgroup Charter including objectives and outcomes
- CCT performance measures and quality assurance improvement plan
- Examine strategies to strengthen the integration of the social and medical models of care

## Recommendations and Outcomes

- Discussion of where additional work is needed to continuing enhancing the delivery of CCT services

# Questions for Workgroup

- Are there areas where additional work is needed?
- Are there other strategies to consider?
