Governor

February 17, 2007

Hello interested stakeholder,

On January 31, 2006, the Department of Health Services submitted a concept document to the federal Centers for Medicare & Medicaid Services (CMS) on the Healthcare Coverage Initiative. The Coverage Initiative offers an opportunity for California to provide healthcare services to a population without coverage currently – and brings significant federal funds with the creation of this product.

The Department would like to continue the stakeholder process to discuss the concept document that was submitted to the federal government and to receive feedback on the outstanding questions as noted in the concept document. The document can be found online, under Hospital Financing, at:
