2016-02	14,954
2016-03	15,508
2016-04	16,000
2016-05	16,185

Description: An examination of statewide, monthly enrollment in the 4M aid code.

Source: MIS/DSS

Date of data run: 7/13/16 (For readability, data from 2013 and early 2014 has been excluded.)

Notes: "Monthly Total Program Participation" represents the total number of individuals enrolled in the 4M aid code in a given month. This includes individuals who have 4M as either their primary or secondary aid code. A possible example of 4M being the secondary aid code is if the individual is also enrolled in CalWORKs.

Description: An examination of San Bernardino County's monthly enrollment in the 4M aid code, separated by age. **Source:** MIS/DSS

Date of data run: 7/13/16 (For readability, data from 2013 and early 2014 has been excluded.)

Notes: The enrollment totals are "Monthly Total Program Participation" totals, which represent the total number of individuals enrolled in the 4M aid code in a given month. This includes individuals who have 4M as either their primary or secondary aid code. A possible example of 4M being the secondary aid code is if the individual is also enrolled in CalWORKs. Cells are suppressed if they contain less than 11 individuals, and to achieve a combined total of at least 11 for all suppressed cells in a row. This is a required step completed to protect those individuals' identity and personal health information. FFY may receive coverage the month they turn 26, because Medi-Cal eligibility is determined on a monthly basis. There may also be 26 year-olds enrolled in 4M because they are being assessed by the counties for other programs..

Description: An examination of Kern County's monthly enrollment in the 4M aid code, separated by age. **Source:** MIS/DSS

Date of data run: 7/13/16 (For readability, data from 2013 and early 2014 has been excluded.)

Notes: The enrollment totals are "Monthly Total Program Participation" totals, which represent the total number of individuals enrolled in the 4M aid code in a given month. This includes individuals who have 4M as either their primary or secondary aid code. A possible example of 4M being the secondary aid code is if the individual is also enrolled in CalWORKs.

Cells are suppressed if they contain less than 11 individuals, and to achieve a combined total of at least 11 for all suppressed cells in a row. This is a required step completed to protect those individuals' identity and personal health information. FFY may receive coverage the month they turn 26, because Medi-Cal eligibility is determined on a monthly basis. There may also be 26 year-olds enrolled in 4M because they are being assessed by the counties for other programs.

Former Foster Youth (FFY): 4M Enrollment

13. County-Specific Monthly Enrollment in 4M

Description: An examination of monthly enrollment in the 4M aid code, separated by county.

Source: MIS/DSS

Date of data run: 7/13/16 (For readability, data from 2013 and early 2014 has been excluded.)

Notes: The enrollment totals are "Monthly Total Program Participation" totals, which represent the total number of individuals enrolled in the 4M aid code in a given month. This includes individuals who have 4M as either their primary or secondary aid code. A possible example of 4M being the secondary aid code is if the individual is also enrolled in CalWORKs.

Cells are suppressed if they contain less than 11 individuals, in order to protect those individuals' identity and personal health information. Some counties were grouped to avoid suppression, when possible.

A new column graph was chosen instead of a line graph to show growth over time and readability. This stacked data shows the amount of enrollment by year, broken down by county.

Former Foster Youth (FFY): 4M Enrollment
