

## IRS MEC Reporting and Form 1095-B Return Process (2015 Tax Year)

- MEDS: All Client Records, soul source of Medi-Cal eligibility and MEC
- DHCS/EITS: Program extracts data and populates 1095 database
  - Data: Client records for IRS
    - IRS keeps record for data matching. <End>
  - Data: Client records for Print sent to OSP
    - DGS/OSP receives data for processing
      - Printed letters picked up by US Postal Service
        - Returned mail > DHCS > Counties <End>
        - Mail delivered to Beneficiary, correct Form 1095-B <End>
- Beneficiary: receives Form 1095, with incorrect information
  - Files taxes with IRS
    - IRS matches ok <End>
  - Contacts County to correct 1095 and reprint form 1095-B
    - County updates SAWS/MEDS record
      - System picks up change and generates new Form 1095-B
        - Process starts over <End>
      - For reprints, County requests reprint through IN-95
