

# APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

## Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.<sup>1</sup> This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

COVID-19 pandemic. This amendment will be available waiver-wide but only applied to individuals impacted by the virus within regional “hot spots” identified by the Director of the Department of Health Care Services (DHCS).

This Appendix K is additive to the Appendix K approved June 8, 2020, and temporarily pauses Waiver enrollment policy in Appendix B-3: f. *Selection of Entrants to the Waiver*, to allow waiver applicants within regions of the state that are identified by the DHCS Director as COVID-19 “hot spots” to be prioritized for intake processing, without having been in an institutional setting for 60 days, and before all other sub-populations.

## Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

### Temporary or Emergency-Specific Amendment to Approved Waiver:

*These are changes that, while directly related to the state’s response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.*

**a. X Access and Eligibility:**

**i. \_\_\_ Temporarily increase the cost limits for entry into the waiver.**

[Provide explanation of changes and specify the temporary cost limit.]

--

ii. X **Temporarily modify additional targeting criteria.**

[Explanation of changes]

When areas of the state experience surges in new cases of COVID-19 positive tests, and are identified as “hot spots” by the DHCS Director, the impact to the health care infrastructure, if left unmitigated, poses a significant risk to the population in need of care if there are no beds available to treat new patients. In order to decompress institutional settings during regional surges of the virus, the state is temporarily amending Waiver enrollment policy to prioritize transitions of beneficiaries in inpatient facility stays, regardless of length of stay. This temporary flexibility will only be implemented in areas of the state that are identified as “hot spots” by the DHCS Director.

**HCBA Waiver, CA.0139.R05.10, Appendix B-3: f.**

**Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

...

Under non-emergency conditions, HCBA Waiver eligible individuals on the waitlist will be assigned available Waiver slots in the following order:

- i. Individuals transitioning to the Waiver from similar HCBS programs.
- ii. Individuals under 21 years of age.
- iii. Individuals who have been residing in a health care facility for at least 60 days at the time the HCBA Waiver application is submitted to a Waiver Agency or DHCS in areas where there is no Waiver Agency .
- iv. Individuals residing in the community at the time of submission of the HCBA Waiver application.

During the COVID-19 public health emergency (PHE), waiver applicants in an inpatient facility stay within regions of the state that are identified by the DHCS Director as COVID-19 “hot spots” will be prioritized for intake processing, without having been in an institution for 60 days, and before all other sub-populations.

**ALW, CA.0431.R03.06, Appendix B-3: f.**

**Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

...

Under non-emergency conditions, enrollment may be prioritized based upon the imminent need for services that is determined through the assessment process. New enrollments into the ALW are required to be processed at a ratio of 60% institutional transition to 40% community enrollments. Participant must reside in an institution for at least 60 days prior to qualifying as an institutional transition onto the Waiver. An individual requesting ALW services must work with a Care Coordination Agency to complete and submit an ALW application to DHCS.

During the COVID-19 public health emergency (PHE), waiver applicants in an inpatient facility stay within regions of the state that are identified by the DHCS Director as COVID-19 “hot spots” will be prioritized for intake processing, without having been in an institution for 60 days, and before all other sub-populations.

[Specify the services.]

**j. \_\_\_ Temporarily include retainer payments to address emergency related issues.**

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

<sup>i</sup> Numerous changes that the state may want to make may necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; or (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
