The Necessity of Coordinated Care

• Some people with multiple chronic conditions see many different doctors and have multiple prescriptions.

• This is common among people with both Medicare and Medi-Cal (Medi-Medi or dual eligible beneficiaries) who are often sicker and poorer than other beneficiaries.

• Today’s care delivery system doesn’t always support the care coordination many people need. This leads to increased risk of admission to the hospital or nursing home.

CCI Updates

- Cal Optima
- LA County Plan Options for Cal MediConnect
- Revised Enrollment Timeline
- Health Care Options
- Cal MediConnect Ombuds Program
- Outreach Update
Last month, CMS announced the results of a program audit of CalOptima’s Duals Special Needs Plan (DSNP). As a result of this audit, Cal MediConnect will not move forward in Orange County until CalOptima achieves the needed corrective actions as required by CMS.

DHCS is very concerned about the issues found by the CMS program audit. There are critical issues here for consumer protections.

DHCS and DMHC have already announced we will be auditing CalOptima’s Medi-Cal programs.

Cal MediConnect and MLTSS remain pending in Orange County.
LA County Plan Options

- LA Care received a Low Performing Icon (LPI) from CMS in LA Care being unable to accept passive enrollment for Cal MediConnect as planned.

- To ensure choice for LA County dual eligibles, DHCS developed a Cal MediConnect-specific solution.

- For Medicare enrolled beneficiaries also enrolled in Medi-Cal, California will passively enroll beneficiaries directly into Cal MediConnect eligible plans - CareMore, Care 1st, Molina, and Health Net starting no sooner than July 2014.

- Once LA Care improves its Medicare quality scores, LA Care will be eligible to begin receiving passive enrollment in Cal MediConnect.

Health Care Options

- DHCS's HCO enrollment broker, MAXIMUS, developed a comprehensive training program to ensure newly hired and existing Customer Service Representatives (CSRs) assigned to assist the CCI impacted population.

- HCO has implemented a separate call center, with a dedicated phone line, and dedicated staff that will be assigned solely to the CCI transition.

- Hiring and training for new CCI call center staff began in December 2013. The new staff includes 60 CSRs, two supervisors, and one manager, are currently receiving training on existing HCO processes and new CCI specific processes.

- This new call center will be fully operation by the end of February 2014.
The Cal MediConnect Ombuds Program is a local ombudsman program operating in each Cal MediConnect county overseen by DMHC to ensure advocacy independent of DHCS and CMS on behalf of Cal MediConnect beneficiaries.

After a rigorous RFP process, the Legal Aid Society of San Diego was chosen as the primary entity to provide ombuds services to Cal MediConnect beneficiaries.

This primary entity will manage a number of subcontractors throughout the demo counties to provide services on a local level. All the entities are re experienced ombuds providers.

The Cal MediConnect Ombuds Program will be operational by April 1, 2014.

Working with HICAP

• DHCS worked with CDA and OPA to develop training materials for HICAP counselors including county specific call triaging fact sheets and a FAQ covering Prescription Drug Coverage under Cal MediConnect.

• DHCS continues to work closely with local HICAP directors to ensure that they have the materials and information they need to assist beneficiaries.

• DHCS collaborates with the HICAP agencies across the 8 CCI counties to keep them up-to-date on CCI information, identify specific needs, answer questions, develop targeted materials to assist their counselors, and collaborate on outreach events.
