

**Medi-Cal Home and Community-Based Services Resource List
Stanislaus County
October 1, 2020 version**

The Medi-Cal program offers a number of home- and community-based services to support individuals with Medi-Cal, particularly around transitions home following a stay in an acute or long-term care facility. This resource guide has information about Medi-Cal managed care plans, providers, and agencies in your county that can arrange or provide home and community-based services. Some services may be accessed concurrently with others. Below you will find descriptions of the various Medi-Cal home and community-based services, including enrollment processes, as well as contacts for how to access services in your county. We encourage use of these services to help support Californians during the COVID-19 pandemic.

This resource guide was last updated October 1, 2020 and may not be comprehensive. To update this guide, contact info@calduals.org. Not all programs may have immediate availability. Please contact the organization to learn more.

Medi-Cal Managed Care Plans:

Medi-Cal Managed Care plans have established networks of providers, including doctors, hospitals, and other providers. Managed care benefits include outpatient services, hospitalization, emergency services, preventive services, rehabilitative services, preventive services, mental health services, transportation, and hospice and palliative care. Additional services are available through Fee-For-Service (FFS) Medi-Cal.

Most Medi-Cal beneficiaries in Stanislaus County are required to enroll in Medi-Cal managed care. Exceptions include individuals dually eligible for Medicare and Medi-Cal, as well as individuals in long-term stays at skilled nursing facilities (generally over 60 days).

For individuals being discharged from hospitals, Medi-Cal managed care plans coordinate with hospital discharge planners on available options, including services available at the individual's home, community settings, and institutional settings.

To enroll in a Medi-Cal managed care plan, or change plans, call Health Care Options at 1-800-430-4263.

Program of All-Inclusive Care for the Elderly (PACE):

The PACE model of care provides a comprehensive medical/social service delivery system using an interdisciplinary team approach in a PACE Center or that provides and coordinates all needed preventive, primary, acute and long-term care services. Services are provided to older adults who would otherwise reside in nursing facilities. The PACE model helps eligible individuals remain independent and in their homes for as long as possible. To be eligible, a person must be 55 years or older, reside in a PACE service area, be determined eligible at the nursing home level of care by the Department of Health Care Services, and be able to live safely in their home or community at the time of enrollment. To enroll in PACE, Medi-Cal beneficiaries should contact one of the PACE Organizations listed below.

In-Home Supportive Services (IHSS) Program:

In-Home Supportive Services (IHSS) is a Medi-Cal based program that assists eligible low-income aged, blind, and disabled persons, including children, who are at risk for out-of-home placement, to remain safely at home by providing payment for care provider services. IHSS is considered an alternative to out-of-home care, such as nursing homes or board and care facilities. The types of services that can be authorized through IHSS are domestic and related services (such as housecleaning, meal preparation, laundry and grocery shopping), personal care services (such as bowel and bladder care, bathing, grooming and paramedical services), accompaniment to medical appointments, and protective supervision for the mentally impaired.

To request IHSS, please contact the Stanislaus County Aging & Veterans Services.

California Community Transitions (CCT):

CCT Lead Organizations serve eligible Medi-Cal beneficiaries of all ages, who have nursing level of care needs and have continuously resided in state-licensed health care facilities for a period of 90 consecutive days or longer, with at least one day paid by Medi-Cal. Facility stays for short-term rehabilitation services reimbursed by Medicare are not counted toward the 90-day required period. CCT Lead Organizations employ or contract with transition coordinators who work directly with willing and eligible individuals, support networks, and providers to obtain home and community based long-term services and supports required for individuals to maintain their health and welfare during and after transitioning to the community setting of their choice.

To enroll in CCT, Medi-Cal beneficiaries should contact Home and Health Care Management (HHCM), the Lead Organization in San Joaquin County, for assistance.

Multipurpose Senior Services Program (MSSP):

MSSP provides both social and health care management services to assist frail individuals aged 65 or older to remain in their own homes and communities. To be eligible for MSSP, these individuals must meet the criteria for skilled nursing facility care and live within an MSSP site area. The Program's goal is to prevent or delay institutionalization through ongoing care management, using available community services and resources, and purchasing needed services when they are not already available. The total annual combined cost of care management and other services must be lower than the cost of receiving skilled nursing facility care.

To enroll in MSSP, Medi-Cal beneficiaries can begin the application process, or request to be put on a waitlist, by contacting the Stanislaus County Department Of Aging And Veterans Services.

Home and Community-Based Alternatives (HCBA) Waiver:

The HCBA Waiver provides care management services to persons at risk for nursing home or institutional placement. The care management services are provided by a multidisciplinary care team comprised of a nurse and social worker. The care management team coordinates Waiver and State Plan services (e.g., medical, behavioral health, In-Home Supportive Services, etc.), and arranges for other available long-term services and supports available in the local community. Care management and Waiver services are provided in the Participant's community-based residence. This residence can be privately owned, secured through a tenant lease arrangement, or the residence of a Participant's family member.

To enroll in the HCBA waiver, Medi-Cal beneficiaries should complete an application for the HCBA Waiver program, and submit it to the local HCBA Waiver Agency, Libertana Home Health. The waiver application form can be found on the Waiver Agency's website.

Assisted Living Waiver (ALW):

The ALW Program is designed to assist Medi-Cal beneficiaries to remain in their community as an alternative to residing in a licensed health care facility. The program provides specified benefits to eligible seniors and persons with disabilities. Medi-Cal reimburses for the services provided to residents enrolled in the ALW; however, the resident is responsible to pay for their own room and board.

ALW eligible individuals are those who are enrolled in Medi-Cal and meet the level of care provided in a nursing facility due to their medical needs. Individuals with Medi-Cal benefits that include a share of cost may not be enrolled in the ALW. Determination of care needs is done by registered nurses (RN) employed by a Care Coordination Agency (CCA).

To enroll in ALW, Medi-Cal beneficiaries should contact one of the agencies below.

Targeted Case Management (TCM):

Targeted Case Management (TCM) is a Medi-Cal program that reimburses participating counties or cities for the federal share of costs for case management services provided to Medi-Cal beneficiaries in specific target populations. The TCM Program provides specialized case management services to Medi-Cal enrolled individuals in a defined target population, to gain access to needed medical, social, educational, and other services. Target populations include: Children under the age of 21; Medically Fragile Individuals; Individuals at Risk of Institutionalization; Individuals in Jeopardy of Negative Health or Psycho-Social Outcomes; and Individuals with a Communicable Disease.

To request TCM services, contact Stanislaus County Behavioral Health.
