Background

Welfare and Institutions Code (WIC) section 14197 requires the Department of Health Care Services (DHCS) to post on its website the requested Alternative Access Standards (AAS) it has approved for that year. These approved AAS are listed in the county-specific tables at the end of this report. MCPs may submit AAS requests for instances where the MCP is unable to meet time and distance standards for the following provider types:¹

- Primary Care Providers (PCP) – adult and pediatric
- OB/GYN specialists
- Core specialists² – adult and pediatric
- Outpatient mental health providers³ – adult and pediatric
- Hospitals
- Pharmacies

For DHCS to approve MCP AAS requests, the MCPs must demonstrate that they have exhausted all reasonable options to meet the applicable standard. DHCS-approved AAS requests are valid for one contract year and must be resubmitted to DHCS for approval annually (no later than 105 days before the start of the next Annual Network Certification), or any time a network change results in the MCP no longer meeting time and distance standards.

Due to the change in enforcing the standard to Time *and* Distance, DHCS received a significant increase in the required AAS requests as compared to previous years. In the 2020 Annual Network Certification period, DHCS received approximately 15,000 individual AAS requests. Because of the volume of AAS requests received, DHCS is still in the process of reviewing AAS at the time of publishing this Report. These requests are indicated as “In Review” in the county-specific tables.

MCPs that receive AAS approvals from DHCS must inform their affected members of all approved AAS through the MCP’s Member Handbook and post all approved AAS, specified by county, on the MCP’s internet website. Each MCP must post the approved AAS on its website no later than 30 days after DHCS publishes the statewide AAS approvals on the DHCS website.⁴

Further, MCPs that have an approved AAS for a core specialist are required to assist any requesting member in obtaining an appointment with an appropriate out of network (OON) core specialist. When assisting the member, the MCP must make its best effort to establish a member-specific case agreement with an OON core specialist at the

¹ See Table 1 for county-specific network adequacy standards and Table 2 for county population density.

³ Psychologists; Licensed Marriage and Family Therapists; and Licensed Clinical Social Workers

⁴ Welfare and Institutions Code 14197.04

Medi-Cal fee-for-service rate or a mutually agreed upon rate. Either that, or the MCP must arrange for an appointment with an in-network specialist, unless the MCP has already attempted to establish a member-specific case agreement with the core specialist in the most recent fiscal year and the core specialist has refused to enter into an agreement. The OON core specialist must be within the MCP's applicable time and distance and timely access standards and, in cases where the OON specialist is not within time and distance standards, the MCP must arrange for non-emergency medical transportation or non-medical transportation.

DHCS Review and Validation Process

MCPs are required to submit accessibility analyses that demonstrate compliance with time and distance standards for the entire service area. DHCS verifies that the MCP submits an AAS request if they were unable to meet time and distance standards based on the accessibility analysis.

To analyze AAS requests, DHCS organized them by ZIP code and county, and included the:

- Driving time and distance, in miles, between the closest in-network provider(s) and the most remote members;
- Proposed AAS standard in minutes and miles from the most remote members; and
- Detailed contracting efforts, including documentation of each provider with whom the MCP attempted to contract and an explanation of why the contract was not executed.

DHCS approved or denied each AAS request by ZIP code and provider type using the following review criteria:

- Exceeds the time standard for driving times to the closest in-network provider request and exceeds the distance standard to the closest in-network provider;
- Includes name and address of closest in-network provider;
- Includes narrative explaining why the MCP was unable to execute contract with located provider, including if there was a rate dispute between the provider and MCP;
- ZIP codes designated as Health Profession Shortage Areas by the U.S. Health Resources and Services Administration;
- Seems reasonable in light of information on:
 - Health Care Options website;
 - Medicare.gov;
 - Office of Statewide Health Planning and Development;
 - California Health and Human Services Open Data/Fee-for-Service;
 - 274 Provider File; and
 - Any additional web based sites.

- Located within 5 miles of the closest provider, and is reasonable given the geographic region, size, and total members affected; then DHCS does not require additional substantiation.

DHCS follows up on approved MCP AAS requests to verify contracting efforts with providers who are closer to MCP members. For each MCP, DHCS selects a valid sample of providers by type and ZIP code for each county in which the MCP operates.

DHCS contacts the MCP and requests documents that demonstrate the MCP's attempts to contract with at least two closer out of network providers. DHCS requests that MCPs submit at least the following documentation in support of AAS requests:

- The NPI(s) of 2 closer out-of-network (OON) provider(s), with whom the MCP requested to contract;
- An explanation of how the MCP exhausted reasonable efforts to contract with the 2 closer OON provider(s);
- A description of the MCP's decision to extend or withhold a contract with 2 closer OON provider(s);
- An attestation that the rate offered to 2 closer OON provider(s) meets at least the average rate of similar contracted providers in the service area;
- A description of quality-of-care concerns with 2 closer OON provider(s), as referenced in APL 18-008; and
- Evidence of communication between MCP and 2 closer OON provider(s), e.g., calendar of meetings, copies of e-mails and correspondence

DHCS will rescind approved AAS for MCPs unable to provide the required documentation and place the MCP under a network adequacy corrective action plan (CAP) for failure to meet time and distance standards. An MCP already under a network adequacy CAP will have its CAP expanded to include the failure of AAS validation. DHCS may review a secondary sample of approved AAS request to determine the extent to which the MCP can or cannot justify the AAS requested.

Alternative Access Standards Results

Observations and Trends

DHCS may consider different factors when approving AAS requests among providers working within the same ZIP code, typically when providers contract with one MCP but not the other within the same service area.

Furthermore, due to the State's varied county population densities and geographical attributes, many AAS requests come from geographically remote regions, which lack specialists, especially pediatric specialists, in both rural and urban counties within time and distance standards. Three dense counties (e.g., Los Angeles, Sacramento, and San Diego) comprise approximately half of the AAS submitted, which was mostly attributed to rural zip codes in dense counties and the time standards not being met.

Current AAS Approval Status

In addition to the annual network certification and provider/facility terminations that result in AAS, DHCS will continue to review any AAS requests received throughout the year and/or during any network adequacy CAP imposed on an MCP. Such determinations are listed in the county-specific tables that follow the Network Adequacy tables on the following pages. DHCS will include in the county-specific tables AAS requests that are under review. As the CAPs are closed out, DHCS will update the newly approved AAS requests and update the published list of approved AAS. Information on MCPs under an Annual Network Certification CAP can be found at: July 2020 Annual Network Certification: [*Corrective Action Plan Report Medical Managed Care Health Plans*](#).

Appendix A: Network Adequacy Standards

Provider Type	Timely Access Standard ⁵	Time and Distance Standard by County Size <small>Error! Bookmark not defined.</small> from the Member's Residence			
		Rural	Small	Medium	Dense
Primary Care (Adult and Pediatric)	Within 10 business days to appt. from request	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes
Specialty Care (Adult and Pediatric)	Within 15 business days to appt. from request	60 miles and 90 minutes	45 miles and 75 minutes	30 miles and 60 minutes	15 miles and 30 minutes
Obstetrics/Gynecology (OB/GYN) Primary Care	Within 10 business days to appt. from request	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes
Obstetrics/Gynecology (OB/GYN) Specialty Care	Within 15 business days to appt. from request	60 miles and 90 minutes	45 miles and 75 minutes	30 miles and 60 minutes	15 miles and 30 minutes
Hospitals	Not Applicable	15 miles and 30 minutes	15 miles and 30 minutes	15 miles and 30 minutes	15 miles and 30 minutes
Pharmacy	Dispensing of at least a 72-hour supply of covered outpatient drug in an emergency situation	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes	10 miles and 30 minutes
Mental Health (non-psychiatry) Outpatient Services ⁶ (Adult and Pediatric)	Within 10 business days to appt. from request	60 miles and 90 minutes	45 miles and 75 minutes	30 miles and 60 minutes	15 miles and 30 minutes

⁵ Timely Access standards apply to all specialists not only core specialists

⁶ Non-specialty mental health services for members with mild to moderate impairments

Provider Type	Timely Access Standard ⁵	Time and Distance Standard by County Size <small>Error! Bookmark not defined.</small> from the Member's Residence			
		Rural	Small	Medium	Dense
Ancillary Services	Within 15 business days to appt. from request.	Not Applicable	Not Applicable	Not Applicable	Not Applicable
Long Term Services and Supports (LTSS)	If applicable	Time and distance standards did not need to be established for Multipurpose Senior Services Program (MSSP), Skilled Nursing Facilities (SNF), or Intermediate Care Facilities (ICF) providers as these providers either travel to the member to provide services or the member resides at the facility for care.			

County Size Categories by Population

Size Category	Population Density	# of Counties	Counties
Rural	<50 people per square mile	21	Alpine, Calaveras, Colusa, Del Norte, Glenn, Humboldt, Imperial, Inyo, Lassen, Mariposa, Mendocino, Modoc, Mono, Plumas, San Benito, Shasta, Sierra, Siskiyou, Tehama, Tuolumne, Trinity
Small	51 to 200 people per square mile	19	Amador, Butte, El Dorado, Fresno, Kern, Kings, Lake, Madera, Merced, Monterey, Napa, Nevada, San Bernardino, San Luis Obispo, Santa, Barbara, Sutter, Tulare, Yolo, Yuba
Medium	201 to 600 people per square mile	9	Marin, Placer, Riverside, San Joaquin, Santa Cruz, Solano, Sonoma, Stanislaus, Ventura
Dense	≥ 600 people per square mile	9	Alameda, Contra Costa, Los Angeles, Orange, Sacramento, San Diego, San Francisco, San Mateo, Santa Clara

Ophthalmology
Orthopedic Surgery
Physical Medicine and Rehabilitation
Psychiatry
Pulmonology

ZIP Codes with Special Considerations

MCPs are not required to meet time and distance standards for certain ZIP codes due to those ZIP codes being carved out to fee for service or another MCP. Therefore, the following carved-out-ZIP codes will not have AAS requests.

County	Carved-out to	Zip Codes
Kern	Fee-for-Service	93558
Kern	Health Net	93516, 93555
Kern	Kern Health Systems	93560
Los Angeles	Fee-for-Service	90704
Riverside	Fee-for-Service	92225, 92226, 92239
San Bernardino	Inland Empire Health Plan	92252, 92256, 92277, 92278, 92284, 92285, 92305, 92309, 92310, 92311, 92314, 92315, 92327, 92339, 92342, 92347, 92356, 92368, 92372, 92397

San Bernardino	Fee-for-Service	92242, 92267, 92280, 92323, 92332, 92363, 92364, 92366, 93562, 93592
