1. This report reflects data submitted by MCPs via the Quarterly Implementation Monitoring Report as of June 30, 2023. Data revised or resubmitted after this date is not reflected.

2. Community Supports are optional, and MCPs may elect which services to offer. At the MCP level, this is a count of the total unique types of Community Supports services offered by each MCP in a given county in 2022. At the county level, this is a count of total unique types of Community Supports services offered by one or more MCPs in the county.

3. MCPs may elect to offer new Community Supports services every six months. At the MCP level, this is a count of the total unique types of Community Supports services that an MCP began offering on a specific date in that county. At the county level, this is a count of total unique types of Community Supports services that were first offered by one or more MCPs on a given date.

4. A member who received Community Supports in multiple counties or from multiple MCPs due to a relocation or plan change in 2022 may be counted multiple times in this report.

5. A member can be eligible for and receive multiple Community Supports services.

6. Gray cells in this section of the table indicate Community Supports not offered by a given MCP at any point in 2022. Where an MCP reported a nonzero value for a Community Support not offered by the MCP at any point in 2022, the value is masked and instead reported as "NA."

7. To comply with data privacy standards, data points with a value under 11 at the plan level are suppressed and reported as <11. Data points at the county level that are under 11 or are greater than 10 but could be used to deduce a masked plan-level value are reported as *. Rates that could be used to deduce a masked value are reported as *.
