**CalAIM Enhanced Care Management and In Lieu of Services
Frequently Asked Questions (FAQ)
June 2021**

Introduction

California Advancing and Innovating Medi-Cal, or CalAIM, is a new initiative by the Department of Health Care Services (DHCS) to improve the quality of life and health outcomes of Medi-Cal Members by implementing broad delivery system, program, and payment reform across the Medi-Cal program. CalAIM establishes the framework to address social determinants of health and improve health equity statewide rather than on a pilot basis. A key feature of CalAIM is the introduction of Enhanced Care Management (ECM) in the Medi-Cal managed care delivery system, as well as a new menu of in lieu of services (ILOS), which can serve as cost-effective alternatives to covered Medi-Cal services. Medi-Cal managed care plans (MCPs) will be responsible for administering both ECM and ILOS. For more information about CalAIM, see DHCS' [Revised CalAIM Proposal](#) released on 1/8/21.¹

ECM and ILOS are ambitious reforms that will take time and support to implement. DHCS recognizes that California MCPs and communities will be working to operationalize these new initiatives and transition smoothly from existing initiatives, most notably the Whole Person Care (WPC) Pilots and Health Home Program (HHP), even as they continue to manage and recover from the COVID-19 Public Health Emergency. DHCS will offer a range of technical assistance and support, including new implementation material posted on the DHCS [CalAIM ECM & ILOS website](#), webinars, and other opportunities for discussion. This FAQ provides up-to-date information about the ECM/ILOS implementation and will be updated regularly.

Please submit questions about ECM and ILOS to: CalAIMECMILOS@dhcs.ca.gov.

Questions about CalAIM generally should be submitted to CalAIM@dhcs.ca.gov.

7. ECM and ILOS Coding Guidance (*forthcoming*)

Enhanced Care Management and In Lieu of Services
Coding Options
May 25, 2021

Encounter Data Submission Process

The Department of Health Care Services (DHCS) requires Medi-Cal Managed Care Health Plans (MCP) to submit encounter data in accordance with requirements in the MCP contract and All Plan Letter 14-019, or any subsequent updates. For Enhanced Care Management (ECM) and In Lieu of Services (ILOS), MCPs will be required to submit encounter data for these services through the existing encounter data reporting mechanisms for all covered services for which they have incurred any financial liability, whether directly or through subcontracts or other arrangements, using ASC X12 837 version 5010 x223 Institutional and Professional transactions or NCPDP 2.2 or 4.2 transactions and the new ECM and ILOS coding requirements outlined in this document, to the Post Adjudicated Claims and Encounters System (PACES) beginning on January 1, 2022.

Enhanced Care Management – Coding Options

The following Healthcare Common Procedure Coding System (HCPCS) codes must be used for ECM services. The HCPCS code and modifier combined define the service as ECM. As an example, HCPCS code G9008 by itself does not define the service as an ECM service. HCPCS code G9008 must be reported with modifier U1 for the care coordination service to be defined and categorized as an ECM service.

HCPCS Level II Code	HCPCS Description	Modifiers	Modifier Description
G9008	ECM In-Person: Provided by Clinical Staff. Coordinated care fee, physician coordinated care oversight services.	U1	Used by Managed Care with HCPCS code G9008 to indicate Enhanced Care Management services
G9008	ECM Phone/Telehealth: Provided by Clinical Staff. Coordinated care fee, physician coordinated care oversight services.	U1, GQ	Used by Managed Care with HCPCS code G9008 to indicate Enhanced Care Management services. GQ modifier is used to indicate services delivered via asynchronous telecommunications system.
G9012	ECM In-Person: Provided by Non-Clinical Staff. Other specified case management service not elsewhere classified.	U2	Used by Managed Care with HCPCS code G9012 to indicate Enhanced Care Management services

Finalized guidance on coding for ECM and ILOS services delivered.

Update on Key ECM Policies

ECM Overview

Summary

- Enhanced Care Management (ECM) will be comprehensive and address the clinical and non-clinical needs of high-need, high-cost Medi-Cal Members through systematic coordination of services and comprehensive care management.
- ECM will be interdisciplinary, high-touch, person-centered and provided primarily through in-person interactions with Members where they live, seek care or prefer to access services.
- To promote health equity, adhering to the guiding principle of using person-centered language whenever possible, “Populations of Focus” instead of “Target populations” will be used to describe the Members who are eligible to receive ECM.
- ECM will be available to all high-need Medi-Cal Members who meet ECM Populations of Focus criteria. For details, please see the “ECM Implementation Decisions” slide deck on the website.

ECM Populations of Focus

ECM go-live will occur in stages, by Population of Focus

Populations of Focus	Go-Live Timing
